

Witness Name: LIAM FELTON  
Statement No: 2  
Exhibits:  
Dated: 5<sup>th</sup> April 2011

**THE BAHA MOUSA PUBLIC INQUIRY**

---

**SUPPLEMENTARY SUBMISSION ON BEHALF OF LIAM FELTON**

---

I, LIAM FELTON will say as follows:

1. My new legal team have explained to me that my credibility as a witness is being called into issue because I have seemingly been insistent that I saw a group of detainees arrive on a truck at night, and that is perhaps being interpreted as the fact they were the Operation Salerno detainees, as I had thought in my statement to the RMP in 2004.
2. I was always aware that detainees were being brought into the unit detention centre and that, on occasions, they were being mistreated. I brought my concerns about this treatment to the RMP as soon as I felt it safe to do so in 2004. I reiterate that I did see a truck of detainees arrive at night, as I have described in my statement to the Inquiry, but I accept that I cannot be certain on the date and time of their arrival and I now accept, because of the evidence of the detainees and others at the Inquiry, that these could not have been the Operation Salerno detainees. My statement to the Inquiry at paragraph 22

explains that this occurred one night and at paragraph 23 sets out there that I could not be certain whether this was the Operation Salerno detainees.

3. At all times I have tried my best to assist all investigations and enquiries by coming forward and telling genuinely what I could recall seeing. This should be contrasted against others who have remained silent. I remained silent until I felt safe to speak to the police and that was initially in 2004. I was prepared to speak out and risk the criticism of my former colleagues and others. I have not lied in my statement or my evidence under oath. I accept that I may have been confused by the dates and times of the various incidents.

4. I stand by what I have said about Colour Sgt Huxley. I consider him a bully particularly towards me, from first meeting him in Northern Ireland. Furthermore I have not made any accusations against anybody on the basis of any grudge. I have made the allegations based merely on my recollection of what actually happened.

**Statement of Truth**

I believe that the facts stated in this supplementary statement are true.
