

Careful! Considerate! Correct!

Join Hubert, Hetty and Gerald as they are transported from 1959 to the present day. They very quickly discover that the modern motorway and road network has changed significantly. As have the driving behaviours of road users!

During their journey, they learn about new technologies and experience at first hand how to safely negotiate the motorway. In true family tradition they adhere to the virtues of being careful, considerate, and correct to see them through.

Feature running time approximately 25 minutes. Warning: all rights of the producer and owner of the work reproduced reserved.
