

CJB 11

Littlejohn

Heard the one about Osama bin Laden...?

DAVID BLUNKETT means well when he talks about asylum legal jurisdiction.

But nothing is ever straightforward in the biggest bit of difference.

Blunkett is a prisoner of the "human rights" lobby, the Martin Wight and the "internationalists" who run every Government department.

The Foreign Office has just appointed Fiona Lindsay, a medical lawyer who represented al-Qaida's top man in Europe, to a senior job handling asylum applications.

Also outside is described as bin Laden's ambassador and has been held under indefinite laws for two years after cutting here as an asylum seeker. Miss Lindsay tried to get his benefits reinstated.

She also won £50,000 using the Home Office on behalf of two asylum seekers who entered Britain on forged passports.

She is currently employed in the Ministry Community Law Centre in East London, which is campaigning against cutting legal aid to asylum seekers (or rather, cutting legal aid to asylum seekers) who make a small fortune representing asylum seekers.

For Miss Lindsay is considered a "right proper person to work as an 'independent member' of an asylum referee."

I think we can guess what she thinks of our tough policy.

Her appointment is just one more reason why all attempts to end the abuse of the asylum system are doomed to failure.

ASYLUM officers were asked to check the papers of a man who had been in the country for some time. The man had a passport from the United Kingdom, but the date had expired long ago. The man was a young man, and he had been in the country for some time. The man had a passport from the United Kingdom, but the date had expired long ago. The man was a young man, and he had been in the country for some time.

TWO Masal warriors have come to Britain from Kenya to learn to drive. They are practicing their hill starts and three-point turns on country roads in South Wales. But they would be well advised not to venture up to North Wales, spiritual home of Minl Malloch Brannigan and the Traffic Jambon. Within a couple of miles they'll have been floored half a dozen times and be banned from driving before they've got the hang of it.

YET another "humanitarian" organisation has been set up to help people who are in need of help. This one is called the "Humanitarian Asylum Seekers' Support Fund". It is a charity which aims to help people who are in need of help. It is a charity which aims to help people who are in need of help.

Whether you believe this is right or wrong, the British Government has to protect itself and the taxpayers who fund it. The Government has to protect itself and the taxpayers who fund it. The Government has to protect itself and the taxpayers who fund it.

It is a pity that the British Government has to protect itself and the taxpayers who fund it. It is a pity that the British Government has to protect itself and the taxpayers who fund it. It is a pity that the British Government has to protect itself and the taxpayers who fund it.

SELF-APPOINTED Community leaders have appointed representatives from the public representing the municipalities into the Mayor of the North West.

The British Government has to protect itself and the taxpayers who fund it. The British Government has to protect itself and the taxpayers who fund it. The British Government has to protect itself and the taxpayers who fund it.

It is a pity that the British Government has to protect itself and the taxpayers who fund it. It is a pity that the British Government has to protect itself and the taxpayers who fund it. It is a pity that the British Government has to protect itself and the taxpayers who fund it.
