Initial proposals summary

Who we are and what we do

The Boundary Commission for England is an independent and impartial non-departmental public body which is responsible for reviewing Parliamentary constituency boundaries in England.

2013 Review

We have the task of periodically reviewing the boundaries of all the Parliamentary constituencies in England. We are currently conducting a review on the basis of new rules laid down by Parliament. These rules involve a significant reduction in the number of constituencies in England (from 533 to 502), and require that every constituency – apart from two specified exceptions¹ – must have an electorate that is no smaller than 72,810 and no larger than 80,473 (please refer to *A guide to the 2013 Review* for details of how this has been calculated).

Initial proposals

We have now completed the first stage of the review process and have published our initial proposals for the new Parliamentary constituency boundaries in England. Information about the proposed constituencies is now available on our website or in hard copy at a local ‘place of deposit’ near you.

What is changing in the South East?

The South East region has been allocated 83 constituencies – a reduction of one from the current arrangement.

Our proposals leave 18 of the 84 existing constituencies unchanged. We propose only minor changes to a further 23 constituencies, with two wards or fewer altered from the existing constituencies.

The rules that we work to state that we must allocate two constituencies to the Isle of Wight. Neither of these constituencies is required to have an electorate that is within the requirements on electoral size set out in the rules.

Where it has not been feasible to allocate whole numbers of constituencies to individual counties, we have grouped local authority areas into sub-regions. The number of constituencies allocated to each sub-region is determined by the electorate of the combined local authorities.

Sub-region	Existing allocation	Proposed allocation
Berkshire	8	8
Brighton and Hove, East Sussex, Kent, and Medway	25	24
Buckinghamshire and Milton Keynes	7	7
Hampshire, Portsmouth, and Southampton	18	17
Isle of Wight	1	2
Oxfordshire	6	6
Surrey	11	11
West Sussex	8	8

In Berkshire, six of the eight existing constituencies are unchanged, while the remaining two are changed only by the transfer of one ward. In Oxfordshire, Surrey, and West Sussex seven out of 25 of the existing constituencies are unchanged. In addition, for a number of other constituencies

¹ The specified exceptions in England to the rules on constituency size are the two constituencies on the Isle of Wight. However, in all other aspects of the 2013 Review, the Isle of Wight is treated in the same way as other parts of England.

in these counties we have been able to identify constituencies which comply with the new rules by making only minor changes.

In other cases, more substantial changes have proved to be necessary.

We propose one constituency that contains electors from East Sussex and Kent, which combines the towns of Battle, Crowborough, and Cranbrook. We also propose one constituency that contains electors from the Borough of Milton Keynes and Buckinghamshire, two constituencies that contain electors from the City of Portsmouth and Hampshire, and three constituencies that contain electors from the City of Southampton and Hampshire.

How to have your say

We are consulting on our initial proposals for a 12-week period, from 13 September 2011 to 5 December 2011. We encourage everyone to use this opportunity to contribute to the design of the new constituencies – the more public views we hear, the more informed our decisions will be when analysing all the views we receive.

We ask everyone wishing to contribute to the design of the new constituencies to first read the *Initial proposals* report and accompanying maps before responding to us.

In particular, we would like to know:

- if you agree in full, in part or not at all with our initial proposals for the South East region;
- which sub-regions you agree with and why;
- which sub-regions you disagree with and why; and

- if you can propose alternatives for areas you disagree with that meet the statutory rules we set out in our report.

You can find more details of how to respond on our website, or you can write to us direct or email southeast@bcommengland.x.gsi.gov.uk. You can also find details of where and when we will be holding public hearings in your area on our website.

1. What is the Boundary Commission for England?

1. The Boundary Commission for England (BCE) is an independent and impartial non-departmental public body, which is required by Parliament to review Parliamentary constituency boundaries in England. We conduct a review of all the constituencies in England every five years. Our role is to make recommendations to Parliament for new constituency boundaries.

2. The Chair of the Commission is the Speaker of the House of Commons, but by convention he or she does not participate in the formulation of the Commission's recommendations, nor in the conduct of the review. The Deputy Chair, Mr Justice Sales, and two further Commissioners take decisions on recommendations for new constituency boundaries. Further information about the Commissioners can be found in the 'About us' section of our website.²

3. Our website also contains all the information needed to view and comment on our initial proposals. You can also contact us with any general enquiries by emailing information@bcommengland.x.gsi.gov.uk, by calling 020 7276 1102, or by writing to:

2. Background to the 2013 Review

4. In February 2011, the UK Parliament passed legislation³ stating that all four Boundary Commissions covering the UK (there are separate Commissions for Scotland, Wales, and Northern Ireland) must conduct a review of Parliamentary constituency boundaries, and make recommendations to the Government, by October 2013. The four Commissions work separately, and this report covers only the work of the BCE and, in particular, introduces our initial proposals for the South East region.

5. Parliamentary constituency boundaries are important, as they define the area that a Member of Parliament will represent once elected to Parliament. The next General Election is expected to be in 2015 (as, at the time of writing and subject to legislation, the Government intends to introduce ‘fixed-term’ Parliaments – i.e. that last for five years). Therefore any recommendations we make, if accepted, are likely to be used for the first time at the General Election in 2015.

6. The legislation we work to states that there will be 600 Parliamentary constituencies covering the UK – a reduction of 50 from the current number. For England, that means that the number of constituencies must reduce from 533 to 502. There are also new rules that the Commission has to adhere to when conducting the Review – a full set of rules can be found in the BCE’s *A guide to the 2013 Review*,⁴ published in the summer of 2011, but they are also summarised later in this chapter. Most significantly, the rules state that every constituency we recommend (with the exception of two covering the Isle of Wight) must contain between 72,810 and 80,473 electors.

7. This is a significant change to the old rules under which Parliamentary boundary reviews took place, where achieving as close as possible to the average number of electors in each constituency was an aim but not an overriding legal necessity. For example, in England, constituencies currently range in electorate size from 55,077 to 110,924. Achieving a more even distribution of electors in every constituency across England, together with the reduction in the total number of constituencies, means that a significant amount of change to the existing map of constituencies is inevitable.

8. *A Guide to the 2013 Review* contains further detailed background, and explains all the policies and procedures that we are following in conducting the Review, in greater depth than in this consultation document. We encourage anyone wishing to be involved in the Review to read this document to enable greater understanding of the rules and constraints placed on the Commission, especially if they are intending to comment on our initial proposals.

The rules in the legislation

9. The rules contained in the legislation state that every constituency in England (except two covering the Isle of Wight) must have an electorate of between 72,810 and 80,473 – that is 5% either side of the **electoral quota of 76,641**. The legislation also states that when deciding on boundaries, the Commission may also take into account:

- a. special geographical considerations, including the size, shape and accessibility of a constituency;

³ The Parliamentary Voting System and Constituencies Act 2011, available at www.legislation.gov.uk

⁴ Available at www.consultation.boundarycommissionforengland.independent.gov.uk/publications and at all places of deposit

- b. local government boundaries as they existed on 6 May 2010;
- c. boundaries of existing constituencies; and
- d. any local ties that would be broken by changes in constituencies.

10. It is essential to understand that none of the factors mentioned in the list above overrides the necessity to achieve an electorate in each constituency that is within the range allowed, as explained previously. In particular, it should be noted that we are obliged to take into account local government boundaries as they existed in May 2010. Our initial proposals for the region and the accompanying maps are based on the wards as they existed in May 2010. *A guide to the 2013 Review* outlines further our policy on how, and to what extent, we take into account local government boundaries. We propose to use the local government districts and wards as at May 2010 as the basic building blocks for construction of constituencies.

11. We have also taken into account the boundaries of existing constituencies so far as we can. We have tried to retain existing constituencies as part of our initial proposals where possible, so long as the other factors can also be satisfied. As mentioned earlier in this chapter, because of the scale of change required to fulfil the obligations imposed on us by the new rules, this has proved difficult. Our initial proposals retain 21% of the existing constituencies in the South East region – the remainder are new constituencies (although in a number of cases we have been able to limit the changes to existing constituencies, making only minor changes as necessary to enable us to comply with the new rules).

The use of the regions used for European elections

12. Our proposals are based on the nine regions used for European elections. This report relates to the South East region. There are eight other separate reports containing our initial proposals for the other regions. In early 2011, following a consultation exercise on the issues, we decided to use these regions as a basis for working out our initial proposals. You can find more details in *A guide to the 2013 Review* and on our website. While this approach does not prevent anyone from making proposals to us that cross regional boundaries (for example, between the South East region and the South West region), in light of the reasons we have set out for the region-based approach and the level of support for this approach expressed in response to our consultation, we would need to have compelling reasons provided to us in order to persuade us to depart from the region-based approach.

Timetable for the 2013 Review

Stage one – initial proposals

13. In March 2011 we published breakdowns of the electorate for each ward, local authority area, and existing constituency, which were prepared using electorate data provided by local authorities and the Office for National Statistics. These breakdowns are available on our website.⁵ The Commission spent a number of months considering the factors outlined above and drawing up our initial proposals. We published our initial proposals for consultation for each of England's nine regions on 13 September 2011.

⁵ At www.consultation.boundarycommissionforengland.independent.gov.uk

Stage two – consultation on initial proposals

14. We are consulting on our initial proposals for 12 weeks, until 5 December 2011. Chapter 4 outlines how you can contribute during the consultation period. We are also hosting five public hearings in the South East, at which people can give their views (see chapter 4). Once the consultation has closed, the Commission will collate all the responses received, including transcripts of the public hearings.

Stage three – consultation on representations received

15. The legislation requires us to publish all the representations we receive on our initial proposals. This publication will mark the start of a four-week period, likely to be in spring 2012, during which anyone can make further written representations with respect to the representations we have received and published. Once we have all the representations from both consultation periods, the Commission will analyse those representations and decide whether changes should be made to the initial proposals.

Stage four – publication of revised proposals

16. If we decide that the evidence presented to us is such that it is appropriate to change our initial proposals, then we must (under the legislation) publish our revised proposals for the areas concerned, and consult on them for a further period of eight weeks. This is likely to be towards the end of 2012. During that consultation period, there is no provision for further public hearings, nor is there a repeat of the four-week period for commenting on the representations of others.

Stage five – final recommendations

17. Finally, following the consultation on revised proposals, we will consider all the evidence received at this stage, and

throughout the Review, before making final recommendations to the Government. The legislation states we must do this by 1 October 2013. Further details about what the Government and Parliament must do to implement our recommendations are contained in *A guide to the 2013 Review*.

18. At the launch of each stage of consultation we will be taking all reasonable steps to publicise our proposals so that as many people as possible are aware of the consultation, and can take the opportunity to contribute to our review of constituencies.

3. Initial proposals for the South East region

19. The South East region comprises the counties of Berkshire, Buckinghamshire, East Sussex, Hampshire, Kent, Oxfordshire, Surrey, and West Sussex (which are covered by a mix of district and county councils, and unitary authorities) and the unitary authorities of Brighton and Hove, Isle of Wight, Medway, Milton Keynes, Portsmouth, and Southampton.

20. The region currently has 84 constituencies. Of the existing constituencies, 45 have electorates within 5% of the electoral quota. The electorates of 30 constituencies fall below the 5% limit, while the electorates of nine constituencies are above the upper limit. As discussed in chapter 2, following our consultation on using the regions as the basis for our initial proposals, we have taken an initial decision that the South East region is to be allocated 83 constituencies, a reduction of one.

21. As discussed in chapter 2, the legislation we work to states that we must allocate two constituencies to the Isle of Wight. Neither of these constituencies is required to have an electorate that is within 5% of the electoral quota.

22. In seeking to produce initial proposals for the region in which 81 of the 83 constituencies have an electorate within 5% of the electoral quota, we first considered whether, and how, the local authorities could usefully be grouped into sub-regions. We were mindful of seeking to respect, where we could, the external boundaries of the local authorities. Our approach in attempting to group local authorities together in sub-regions was based both on trying to respect county boundaries wherever possible and on achieving (where we could) obvious practical groupings such as those dictated in some part by the geography of the area.

23. Our division of the South East region into sub-regions is a purely practical approach.

Respondents to our consultation are welcome to make counter-proposals based on other groupings of counties and unitary authorities, if the statutory factors can be better reflected in those counter-proposals.

24. The City of Brighton and Hove has 195,038 electors which would result in an allocation of 2.54 constituencies. Given its historic links to East Sussex and the current configuration of constituencies, we initially considered whether it would be appropriate to consider Brighton and Hove together with East Sussex. With a joint electorate of 589,221, the combined area would require an allocation of eight constituencies. With an allocation of eight constituencies, the average electorate for each constituency would be 73,653, just 843 electors above the lower limit (72,810) of the 5% target. We considered that, in all likelihood, it might prove difficult to allocate eight constituencies all with electorates within the 5% target. We therefore considered whether we should group the City of Brighton and Hove and East Sussex with either Kent and Medway or West Sussex.

25. With an electorate of 602,338 it is possible to allocate eight constituencies to West Sussex, which is the same number as at present. The electorate of Kent and Medway is 1,235,505, and it is possible to allocate 16 constituencies, a reduction of one from the current situation. As there would need to be significant change to some of the constituencies in Kent to accommodate this reduction, we considered that grouping Brighton and Hove, East Sussex, Kent, and Medway into one sub-region, with an allocation of 24 constituencies, would be most appropriate. As a result our proposals contain one constituency which crosses the boundary between the City of Brighton and Hove and the County of East Sussex, and one constituency that crosses the boundary between East Sussex and Kent.

One constituency also crosses the boundary between Kent and Medway (see the Brighton and Hove, East Sussex, Kent, and Medway sub-region).

26. The electorate of Milton Keynes, at 166,778, is too large to be contained within two whole constituencies. We therefore propose to group Milton Keynes with Buckinghamshire in one sub-region, given that Buckinghamshire is the only county in the South East region that Milton Keynes borders. With a combined electorate of 541,158, we propose to allocate seven constituencies to this sub-region, the same number as at present. Our proposals include one constituency which crosses the boundary between Milton Keynes and Buckinghamshire (see the Buckinghamshire and Milton Keynes sub-region).

27. The area of Hampshire, Portsmouth, and Southampton has an electorate of 1,312,952. This enabled us to develop a proposal in which 17 constituencies are allocated to the area without the need to cross the boundary of another county. Two of the constituencies cross the boundary between Hampshire and the City of Portsmouth and three cross the boundary between Hampshire and the City of Southampton (see the Hampshire, Portsmouth, and Southampton sub-region).

28. The electorates of the counties of Berkshire, Oxfordshire, Surrey, and West Sussex enable each of them to be allocated a whole number of constituencies with electorates within 5% of the electoral quota, therefore allowing us to consider them individually. We accordingly propose that eight constituencies be allocated to Berkshire, six constituencies to Oxfordshire, eleven constituencies to Surrey, and eight constituencies to West Sussex. The number of constituencies allocated to each of these counties is the same as at present.

29. The term 'ward' used throughout this document should be taken to mean electoral division in reference to the Isle of Wight.

Initial proposals for the Berkshire sub-region

30. There are currently eight constituencies in this county. We are proposing no change to the number of constituencies. Of the existing constituencies, six have electorates within 5% of the electoral quota. Of the remaining two constituencies, Slough is above the 5% limit and Windsor is below it.

31. We propose to keep unaltered all six constituencies that are within the 5% electoral quota (Bracknell, Maidenhead, Newbury, Reading East, Reading West, and Wokingham).

32. In order to reduce the large electorate of the Slough constituency and to increase the electorate of the neighbouring Windsor constituency, we propose to transfer the Foxborough ward of the Borough of Slough to our proposed Windsor constituency. We note that the neighbouring ward of the Borough of Slough, Colnbrook with Poyle, is already in the existing Windsor constituency. Apart from this one alteration, we propose no further changes in Berkshire.

Initial proposals for the Brighton and Hove, East Sussex, Kent, and Medway sub-region

33. There are currently 25 constituencies in this sub-region. Of the existing constituencies, 10 have electorates within 5% of the electoral quota (Bexhill and Battle; Brighton, Pavilion; Canterbury; Dartford; Eastbourne; Hastings and Rye; Rochester and Strood; Sittingbourne and Sheppey; Tunbridge Wells; and Wealden). Of the remaining constituencies, 13 have electorates that are below the 5% limit, and two are above it. We propose to reduce the number of constituencies to 24.

34. We considered whether we could leave unchanged any of the 10 existing constituencies that have an electorate within 5% of the electoral quota. However, in developing proposals in which all the proposed electorates are within the 5% limit, and taking account of the reduction in the number of constituencies in this sub-region, we propose changing all but three constituencies (Eastbourne, Hastings and Rye, and Sittingbourne and Sheppey). We propose only minor changes to the constituencies of Ashford, Dartford, Dover, Folkestone and Hythe, Gillingham and Rainham, Gravesham, and Rochester, with two wards or fewer altered from the existing constituencies.

35. The existing constituencies of Hove and Brighton, Kemptown have electorates which are below the 5% limit. We therefore propose a reconfiguration within the City of Brighton and Hove.

36. We propose a constituency that includes three wards from the existing Hove constituency, four wards from the existing Brighton, Pavilion constituency and the Queen's Park ward from the existing Brighton, Kemptown constituency. We consider that this constituency brings together the central elements of the city. For reasons of clarity, we have taken a policy decision not to include commas in the names of constituencies. We therefore propose to name this constituency Brighton Pavilion and Hove.

37. We propose a Brighton and Hove North constituency which includes six wards from the existing Hove constituency and three wards from the existing Brighton, Pavilion constituency, including the Patcham area.

38. Due to the small electorates of the neighbouring Lewes and Brighton, Kemptown constituencies, we propose a Lewes and Brighton East constituency that contains

eight wards from the existing Brighton, Kemptown constituency, four of which are City of Brighton and Hove wards, and four of which are District of Lewes wards. In addition, our proposed constituency includes a further eight wards of the District of Lewes, from the existing Lewes constituency. It broadly follows the path of the River Ouse along the eastern boundary and both parts of the constituency are accessed by the A27 road.

39. Due to the changes elsewhere, we propose an entirely new Uckfield constituency that contains 12 wards from the existing Wealden constituency. The proposed constituency extends to the Kent county boundary in the north and further to the south, and also includes ten wards from the existing Lewes constituency, covering the coastal towns of Newhaven and Seaford, and the Newick ward from the existing Lewes constituency in the west.

40. We propose a new Bexhill constituency comprising almost half of the existing Bexhill and Battle constituency: it includes 16 wards from that constituency, encompassing the towns of Bexhill and Heathfield. In addition, our Bexhill constituency includes three wards from the existing Wealden constituency, including the town of Hailsham, and two wards from the existing Lewes constituency covering the town of Polegate.

41. As previously mentioned, we propose retaining the existing Eastbourne and Hastings and Rye constituencies.

42. As a result of the changes we have made in East Sussex, we propose a constituency called The Weald that crosses the county boundary between Kent and East Sussex. We considered that the similarity of areas on both sides of the county boundary and the geographical nature of the Weald meant that this was the most suitable place in which

to create a constituency across the county boundary. The proposed constituency includes the remaining six wards from the existing Bexhill and Battle constituency, including the town of Battle, and nine wards from the existing Wealden constituency, including the town of Crowborough. In addition, it includes seven Borough of Tunbridge Wells wards, including the town of Cranbrook. We consider that the A21 road that runs through the centre of the constituency provides a good link between its northern and southern parts.

43. As a consequence of our proposed The Weald constituency, the existing Tunbridge Wells constituency has to be reconfigured in order to have an electorate that is within 5% of the electoral quota. Our proposed Tunbridge Wells constituency includes 13 wards of the existing constituency, covering the town of Tunbridge Wells, six wards of the existing Tonbridge and Malling constituency, and the Westerham and Crockham Hill ward from the existing Sevenoaks constituency.

44. In order to increase the electorate of the Sevenoaks constituency, we propose to include all wards from the existing Sevenoaks constituency (apart from the Farningham, Horton Kirby and South Darenth ward, which we consider has links with Dartford, and the Westerham and Crockham Hill ward referred to above) in our proposed Sevenoaks constituency. We have also included four Borough of Tonbridge and Malling wards from the existing Tonbridge and Malling constituency with which there are strong communication links along the M26 motorway.

45. The existing Tonbridge and Malling constituency has been significantly reconfigured due to the changes elsewhere. Our proposed Tonbridge constituency includes 11 wards from the existing Tonbridge and Malling constituency and ten wards of the Borough of Maidstone from the Faversham

and Mid Kent, and Maidstone and the Weald constituencies, as well as the Weald North ward from the existing Ashford constituency, which we considered was the most suitable. Apart from this transfer, we propose no further changes to the existing Ashford constituency.

46. Our proposed Maidstone constituency is significantly different from the existing Maidstone and The Weald constituency. We propose a more compact Maidstone constituency, comprising only Borough of Maidstone wards and respecting the northern boundary of the borough.

47. Our proposed Dartford constituency includes the Farningham, Horton Kirby and South Darenth ward of the District of Sevenoaks, from the existing Sevenoaks constituency, instead of the Hartley and Hodsoll Street ward of the District of Sevenoaks, which is transferred to the Gravesend constituency. Apart from this transfer, our proposed constituency of Gravesend remains unchanged from the existing constituency, save for the name change from Gravesham to Gravesend.

48. Our proposed Rochester constituency is largely unchanged, apart from the inclusion of the Chatham Central ward from the existing Chatham and Aylesford constituency, and the transfer of the Rochester South and Horsted ward to our proposed Chatham and Aylesford constituency. In addition, we propose to shorten the name to Rochester from the existing Rochester and Strood.

49. We propose a Gillingham and Rainham constituency that is largely unchanged apart from the inclusion of the Luton and Wayfield ward of the Borough of Medway from the existing Chatham and Aylesford constituency and the transfer of the Hempstead and Wigmore ward to our proposed Chatham and Aylesford constituency.

50. We note that the Chatham Central ward is not included in our proposed Chatham and Aylesford constituency. However, we consider that some disruption in this area is unavoidable as our options are limited by the River Medway, the large electorates of the wards and the close proximity to each other of all the major towns. Our proposed Chatham and Aylesford constituency includes 11 wards of the existing constituency; a ward each from the existing Gillingham and Rainham, and Rochester and Strood constituencies, as previously discussed; and the two wards of East Malling, and West Malling and Leybourne from the existing Tonbridge and Malling constituency.

51. As previously mentioned, our proposed Sittingbourne and Sheppey constituency remains unchanged from the existing constituency.

52. In order to reduce the electorate of the Folkestone and Hythe constituency we propose the transfer of the Elham and Stelling Minnis, and North Downs East wards of the District of Shepway to the Dover constituency. This also allows us to increase the small electorate of the existing Dover constituency without making further changes to the existing constituency.

53. The changes we have suggested elsewhere in Kent have led us to propose a new Margate and Ramsgate constituency that contains the resort towns of Margate, Broadstairs, and Ramsgate. Our proposed constituency contains the majority of the existing South Thanet constituency.

54. As a consequence, on the North Kent coast the remainder of the wards in the existing North Thanet constituency, encompassing the towns of Herne Bay and Westgate-on-Sea, are included in our proposed Herne Bay constituency. This

constituency also includes five wards from the existing Canterbury constituency and the ward of Little Stour and Ashstone of the District of Dover from the existing South Thanet constituency.

55. As a further result of the changes elsewhere, we propose a new Canterbury constituency that includes 13 wards from the existing constituency, including the City itself, and six wards from the existing Faversham and Mid Kent constituency, including the town of Faversham. The A2 road provides good communication links throughout the proposed constituency.

Initial proposals for the Buckinghamshire and Milton Keynes sub-region

56. As mentioned previously, we decided that Milton Keynes and Buckinghamshire should be considered as one sub-region as it would not be necessary to cross the boundary with any other county. There are currently seven constituencies in this sub-region. We are proposing no reduction to the number of constituencies.

57. Of the existing constituencies, four have electorates within 5% of the electoral quota. Of the remaining constituencies, Milton Keynes North and Milton Keynes South are above the 5% limit and Chesham and Amersham is below.

58. We considered whether we could leave unchanged any of the four existing constituencies that have an electorate within 5% of the electoral quota. We propose keeping Beaconsfield the same as the existing constituency.

59. The Borough of Milton Keynes is currently divided into two constituencies, both of which have electorates above the 5% limit. In order to reduce the electorates of the two Milton Keynes constituencies it is necessary to

cross the boundary between the Borough of Milton Keynes and Buckinghamshire, and we therefore propose to include the Bletchley and Fenny Stratford, and Eaton Manor wards of the Borough of Milton Keynes in our proposed Buckingham constituency. We consider these two wards to be the most appropriate for inclusion in a cross-county constituency due to the communication links between the county and the borough.

60. As a consequence, we propose that our Milton Keynes North constituency include the two wards of Danesborough and Walton Park from the existing Milton Keynes South constituency and that, in turn, the two wards of Bradwell and Campbell Park be moved to the Milton Keynes South constituency, from the existing Milton Keynes North constituency.

61. The inclusion of the two Borough of Milton Keynes wards in the cross-county constituency has led us to move the Haddenham ward of the District of Aylesbury Vale and the Icknield and The Risboroughs wards of the District of Wycombe to our proposed Aylesbury constituency from the existing Buckingham constituency. This allows us to improve the shape of the existing Aylesbury constituency.

62. We propose that the Chesham and Amersham constituency, which currently has an electorate below the 5% electoral quota, include the wards of Greater Hughenden, and Lacey Green, Speen and the Hampdens of the District of Wycombe, from the south east of the existing Aylesbury constituency. Our proposed Wycombe constituency includes the wards of Bledlow and Bradenham, and Stokenchurch and Radnage. We consider that there are strong communication links within each of these two constituencies.

Initial proposals for the Hampshire, Portsmouth, and Southampton sub-region

63. There are currently 18 constituencies in this sub-region, eight of which (Basingstoke; Eastleigh; Fareham; Gosport; New Forest East; North West Hampshire; Southampton, Itchen; and Winchester) have electorates within 5% of the electoral quota. The electorates of all the remaining constituencies are below the lower 5% limit. We propose to allocate 17 constituencies to this sub-region, a reduction of one from the current arrangement.

64. We considered whether we could leave unchanged any of the eight existing constituencies that have an electorate within 5% of the electoral quota. However, in developing proposals in which all constituency electorates are within 5% of the electoral quota we propose altering all but one of these constituencies – Gosport. Our proposed Basingstoke constituency differs only to take account of a very small ward boundary alteration.

65. In the north of the county the constituencies we propose are not dissimilar to the existing constituencies; however, the shape and the electoral size of the wards, and the geographical features in the south of the county and along the coast, proved to be more of a challenge.

66. Our proposed Aldershot and North East Hampshire constituencies remain largely unaltered from the existing constituencies, except for the inclusion in our Aldershot constituency of the Fleet North ward of the District of Hart from the existing North East Hampshire constituency. This is necessary in order to bring the constituency's electorate within 5% of the electoral quota. As a consequence, our proposed North East Hampshire constituency includes the three wards of Oakley and North Waltham, Tadley Central, and Tadley South of the Borough

of Basingstoke and Deane, which are in the existing North West Hampshire constituency.

67. As the existing North West Hampshire constituency has had wards transferred into our proposed North East Hampshire constituency, our proposed North West Hampshire constituency extends further south than the existing constituency and includes six wards that are in the existing Romsey and Southampton North constituency.

68. In the New Forest, our options are limited by the shapes of wards and by our reluctance to propose a constituency that straddles either Southampton Water, thereby making travel between the constituency's parts difficult, or the South East region boundary, contrary to our stated policy. The existing New Forest West constituency's electorate is too small. Our proposed New Forest West constituency therefore contains all the wards that are in the existing constituency as well as the Boldre and Sway, Lyndhurst, and Brockenhurst and Forest South East wards from the existing New Forest East constituency.

69. As a consequence, the New Forest East constituency's electorate becomes too small, and we therefore include the town of Romsey in our proposed New Forest East and Romsey constituency. This constituency contains 14 wards from the current New Forest East constituency and four wards from the current Romsey and Southampton North constituency.

70. The City of Southampton contains too many electors to be wholly contained within two constituencies, and the ward electorates permit few options in this area. Our proposals create two constituencies that are similar to the existing Southampton constituencies. Our proposed Southampton Test constituency includes the Chilworth, Nursling and Rownhams ward of the Borough of Test Valley (to the north west of the city) and the

Bassett ward of the City of Southampton, both of which are in the existing Romsey and Southampton North constituency. We propose to include the Swaythling ward of the City of Southampton in a newly configured Eastleigh constituency, and the Bevois ward of the City of Southampton in our proposed Southampton Itchen constituency. This constituency does not include any wards from outside the city. In accordance with our policy decision mentioned earlier, we propose to remove the comma from the name of the existing Southampton, Itchen constituency.

71. Our proposed Eastleigh constituency is significantly reconfigured as a result of our suggested changes elsewhere. It extends further to the north of Southampton than the existing constituency and no longer extends to the Solent. It includes three wards of the Borough of Test Valley that are in the existing Romsey and Southampton North constituency, four wards of the Borough of Eastleigh that are in the existing Winchester constituency, and seven wards that are in the existing Eastleigh constituency. This arrangement allows us to respect much of the district boundary between the City of Winchester and the boroughs of Eastleigh and Test Valley.

72. We propose to include the remaining eight wards from the existing Eastleigh constituency, with five wards from the current Fareham constituency, to create a new Hedge End and Hamble constituency. This constituency also includes the Bitterne ward of the City of Southampton.

73. As a consequence of these changes we propose a new Fareham and Horndean constituency which extends further north and east than the existing Fareham constituency to include 12 wards that are in the present Meon Valley constituency, which ceases to exist. The existing Gosport constituency remains unchanged.

74. The City of Portsmouth currently contains two constituencies – Portsmouth North and Portsmouth South. In order to create two constituencies that are within 5% of the electoral quota and to take into account the geographical features of the city, we propose an East and a West constituency, each of which includes one ward from outside the city boundary. We propose to include the Portchester East ward of the Borough of Fareham in our Portsmouth West constituency and the Purbrook ward of the Borough of Havant in our Portsmouth East constituency. We considered this configuration to be the most suitable in terms of their proximity to the City of Portsmouth.

75. Our proposed Havant and East Hampshire constituencies are largely unchanged. Our proposed Havant constituency no longer includes the Purbrook ward, but it includes the Waterloo ward of the Borough of Havant and the Rowlands Castle ward of the District of East Hampshire, both of which are in the existing Meon Valley constituency. Our proposed East Hampshire constituency includes the Clanfield and Finchdean ward of the District of East Hampshire, which is also currently in the Meon Valley constituency.

Initial proposals for the Isle of Wight sub-region

76. As discussed earlier, the Isle of Wight is specifically allocated two whole constituencies. While the legislation does not state that the two constituencies should have similar electorates, we considered that it would be in accordance with the spirit of the legislation to divide the island relatively equally in terms of electorate. We will, however, consider representations that do not follow this approach, given there is no legislative necessity to do so.

77. We considered a number of configurations for how to divide the island between

constituencies. We propose to divide the island into Isle of Wight North and Isle of Wight South constituencies. The northern constituency is geographically smaller and contains the urban areas of the towns of Cowes, Newport and Ryde. The geographically larger southern constituency is more rural in nature. It extends from The Needles in the west to Bembridge in the east.

Initial proposals for the Oxfordshire sub-region

78. There are currently six constituencies in the County of Oxfordshire. We are proposing no change to the number of constituencies.

79. Four of the existing constituencies (Henley, Oxford West and Abingdon, Wantage, and Witney) have electorates within 5% of the electoral quota. The remaining two constituencies (Banbury and Oxford East) are above the 5% limit.

80. We considered whether we could leave unchanged any of the four existing constituencies that have an electorate within 5% of the electoral quota. We propose keeping Wantage and Witney the same as the existing constituencies.

81. To reduce the electorate of the existing Banbury constituency, which is too large, we considered that the only suitable option is to include the Ambrosden and Chesterton, and Launton wards of the District of Cherwell in our proposed Henley constituency. Therefore, our proposed Henley constituency extends further to the north than at present, up to but not including the town of Bicester. In addition, it includes the Radley ward of the District of the Vale of White Horse from the existing Oxford West and Abingdon constituency. This is necessary in order to accommodate changes to the existing Oxford East constituency, which has an electorate more than 5% above the electoral quota.

82. To provide for a reduction in the electorate of the existing Oxford East constituency, we propose the transfer of the Carfax ward of the City of Oxford to our proposed Abingdon and Oxford North constituency, which, to reflect the changes in this area, we propose to rename from the existing name of Oxford West and Abingdon. We also propose to rename the Oxford East constituency Oxford.

Initial proposals for the Surrey sub-region

83. There are currently 11 constituencies in the County of Surrey. We are proposing no change to the number of constituencies.

84. Eight of the existing constituencies have electorates within 5% of the electoral quota. The electorates of three constituencies – Mole Valley, Reigate, and Spelthorne – are below the 5% limit.

85. We considered whether we could leave unchanged any of the eight existing constituencies that have an electorate within 5% of the electoral quota. In developing proposals in which all the constituency electorates are within 5% of the electoral quota we have not made alterations to three constituencies: Epsom and Ewell, Esher and Walton, and South West Surrey.

86. To increase the electorate of the existing Reigate constituency we have included the Chaldon ward of the District of Tandridge from the East Surrey constituency, as the other wards were either too large geographically or would result in a division of the town of Horley. We are not proposing any further changes to either constituency.

87. The Mole Valley constituency remains largely unchanged, apart from the inclusion of the Ewhurst ward of the Borough of Waverley from the existing Guildford constituency. In order to increase the electorate of the

existing Spelthorne constituency, we propose the transfer of the Weybridge North ward of the Borough of Elmbridge to our proposed Spelthorne constituency from the existing Runnymede and Weybridge constituency. As a consequence, our proposed Runnymede and Weybridge constituency includes the Byfleet ward of the Borough of Woking, from the existing Woking constituency. We further propose to transfer the Bisley ward of the Borough of Surrey Heath to our proposed Woking constituency, from the existing Surrey Heath constituency. In all these constituencies we consider that the wards that have been transferred are the most suitable in terms of geographic proximity and communication links.

88. We propose to transfer the Pilgrims ward of the Borough of Guildford from the existing Guildford constituency to our proposed Woking constituency, in order to bring the latter's electorate within 5% of the electoral quota.

Initial proposals for the West Sussex sub-region

89. There are currently eight constituencies in the County of West Sussex. We are proposing no change to the number of constituencies.

90. Five of the existing constituencies have electorates within 5% of the electoral quota. The electorates of two constituencies (Bognor Regis and Littlehampton, and Crawley) are below the 5% limit and one constituency (Chichester) is above the 5% limit.

91. We considered whether we could leave unchanged any of the five existing constituencies that have an electorate within 5% of the electoral quota. In developing proposals in which all the constituency electorates are within 5% of the electoral quota we have not made alterations to the composition of two constituencies – East Worthing and Shoreham, and Worthing West.

92. Our proposed Chichester constituency remains largely unchanged from the existing constituency, with only the Easebourne and Plaistow wards of the District of Chichester transferring to our proposed Arundel and South Downs constituency, in order to bring it within 5% of the electoral quota. Although we did not need to alter the existing Mid Sussex constituency, we have included the Bolney ward of the District of Mid Sussex, which is in the existing constituency, in our proposed Arundel and South Downs constituency. We consider that this improves the shape of both constituencies.

93. We also propose including the Barnham and Walberton wards of the District of Arun, which are currently in the Arundel and South Downs constituency, in our proposed Bognor Regis and Littlehampton constituency, in order to increase its electorate to within 5% of the electoral quota.

94. The existing East Worthing and Shoreham, and Worthing West constituencies remain unchanged, except for the proposed change of name of the former to Worthing East and Shoreham.

95. The only change we have made to the existing Crawley and Horsham constituencies is the transfer of the Copthorne and Worth ward of the District of Mid Sussex from the existing Horsham constituency to Crawley in order to increase the latter's electorate to within 5% of the electoral quota.

4. How to have your say

96. We are consulting on our initial proposals for a 12-week period, from 13 September 2011 to 5 December 2011. We encourage everyone to use this opportunity to contribute to the design of the new constituencies – the more public views we hear, the more informed our decisions will be when analysing all the views we receive.

97. In particular, we ask people to bear in mind the tight constraints placed on the Commission by the rules set by Parliament, as well as the decisions we have taken regarding adoption of a regional approach and use of local government wards discussed in chapter 2 and in the BCE's *A guide to the 2013 Review*. Most importantly:

- a. We cannot recommend constituencies that have electorates that are more or less than 5% from the electoral quota (apart from the two covering the Isle of Wight).
- b. We are basing our initial proposals on local government ward boundaries (as at May 2010) as the building blocks of constituencies. Our view is that, in the absence of exceptional and compelling circumstances, it would not be appropriate to divide wards in cases where it is possible to construct constituencies that meet the 5% statutory requirement without doing so.
- c. We have constructed constituencies within regions, so as not to cross regional boundaries. Compelling reasons would need to be given to persuade us that we should depart from this approach.

98. These issues mean that we encourage people who are making a representation on a specific area to bear in mind the knock-on effects of their proposals. The Commission must look at the recommendations for new constituencies across the whole region (and, indeed, across England). We therefore

ask everyone wishing to respond to our consultation to bear in mind the impact of their counter-proposals on neighbouring constituencies, and on those further afield across the region.

How can you give us your views?

99. There are two ways you can give us your views on our initial proposals: in writing (including by email or through the online form on our website), or in person at one of a series of public hearings we are conducting during the consultation period. People are welcome to both attend a hearing and send us a written representation.

Written representations

100. We encourage everyone to make use of our consultation website, at www.consultation.boundarycommissionforengland.independent.gov.uk, when contributing to our consultation. The website contains all the *Initial proposals* reports and maps, the electorate sizes of every ward and an online facility where you can have your say on our initial proposals.

101. You can also contribute to our consultation by writing directly to us at: Boundary Commission for England, 35 Great Smith Street, London SW1P 3BQ. Or email us with your views, at: southeast@bcommengland.x.gsi.gov.uk. If you wish to comment on more than one region, please send your email to reviews@bcommengland.x.gsi.gov.uk. If you wish to write to us directly, we encourage you to follow the structured approach outlined below and on the separate summary sheet, copies of which can be found at your local place of deposit, or downloaded from our website, at www.consultation.boundarycommissionforengland.independent.gov.uk.

102. We encourage everyone, before submitting a representation, to read our approach to data protection and,

in particular, the publication of all representations and personal data within them. This is available at www.consultation.boundarycommissionforengland.independent.gov.uk, or by phoning 020 7276 1102.

Public hearings

103. The Commission will be holding public hearings across all the English regions. In the South East region we will be hosting five public hearings during the consultation period – the maximum number allowed by the legislation. Our website (www.consultation.boundarycommissionforengland.independent.gov.uk) has more details of these hearings, and an opportunity to register to attend and speak. The table below shows the locations and dates of the hearings in the South East region.

Locations and dates of public hearings

City/town	Location	Dates
Reading	Royal Berkshire Conference Centre, Madejski Stadium, Reading RG2 0FL	Thursday 20 – Friday 21 October 2011
Milton Keynes	Milton Keynes Council, 1 Saxon Gate East, Central Milton Keynes MK9 3EJ	Monday 24 – Tuesday 25 October 2011
Portsmouth	Civil Offices, Guildhall Square, Portsmouth PO1 2AL	Thursday 27 – Friday 28 October 2011
Crawley	Crowne Plaza London Gatwick A, Langley Drive, Crawley RH11 7SX	Monday 31 October – Tuesday 1 November 2011

City/town	Location	Dates
Maidstone	Ramada Maidstone, Ashford Road, Hollingbourne, Maidstone ME17 1RE	Thursday 3 – Friday 4 November 2011

104. The purpose of the hearings is for people to have an opportunity to make representations orally to an Assistant Commissioner, who will chair the hearings and subsequently provide the Commission with a report on their findings. The hearings differ from the way we used to conduct ‘public inquiries’ in past reviews – these were much more judicial in style, with people being allowed to cross-examine each other. The new legislation that Parliament has introduced specifically rules out such inquiries, specifying instead that we host public hearings. These are intended purely as a way for people to make representations orally, direct to representatives of the Commission, as well as to provide an opportunity for the Commission to explain its proposals.

105. It is important to stress that all representations, whether they have been submitted through the online facility on our website, made in person at a hearing or sent to us in writing or by email, will be given equal consideration by the Commission. Therefore it does not matter if you are unable to attend or speak at a public hearing – even after the last public hearing in the South East region has been completed on 4 November 2011, you will still have four weeks left to submit your views to us. By statute, time for the public hearings is strictly limited and you may wish to ensure that your full representations about our proposals are made to us in writing.

106. You can find more information about public hearings, and can register to attend,

on our website at www.consultation.boundarycommissionforengland.independent.gov.uk, or by phoning 020 7276 1102.

What do we want views on?

107. While you are welcome to write to us on any issue regarding our initial proposals, it would aid our understanding and analysis if you, when contributing, followed the structured approach available on our consultation website at www.consultation.boundarycommissionforengland.independent.gov.uk. This structured approach is also outlined below and available in our separate summary leaflet (copies of which are available in places of deposit and on our website). We encourage anyone wishing to contribute to the formation of our final recommendations to follow this approach. The structured approach will also allow us more easily to identify representations on specific areas, or from specific people, during the subsequent four-week period of consultation (referred to in chapter 2).

108. We would particularly like to ask two things of those considering responding to our consultation. First, if you support our proposals, please tell us so, as well as telling us where you object to them. Past experience suggests that too often people who are happy with our proposals do not respond in support, while those who object to them do respond to make their points. That can give a rather distorted view of the balance of public support or objection to proposals, and those who support our initial proposals may then be disappointed if they are subsequently revised in light of the consultation responses. Second, if you are considering objecting to our proposals, do please use the resources (maps and electorate figures) available on our website and at the places of deposit to put forward counter-proposals that are in accordance with the rules to which we are working.

109. Specifically, while anyone is welcome to submit views in whatever format, we are looking for views structured around the following questions:

- a. Do you agree in full, in part or not at all with our initial proposals for the South East region?
- b. Which sub-regions do you agree with and why?
- c. Which sub-regions do you disagree with and why?
- d. What are your alternatives for areas you disagree with that meet the statutory rules set out in chapter 2?

110. Above all, however, we encourage everyone to have their say on our initial proposals and, in doing so, to become involved in drawing the map of new Parliamentary constituencies. The more views we get on our initial proposals, the more informed our consideration in developing those proposals will be, and the better we will be able to reflect the public's views in the final recommendations we present in 2013.

Annex: Initial proposals for constituencies, including wards and electorates

Constituency	Ward	District/borough/city/county	Electorate
1. Abingdon and Oxford North CC			79,704
	Kidlington North	Cherwell	3,971
	Kidlington South	Cherwell	6,136
	Yarnton, Gosford and Water Eaton	Cherwell	3,615
	Carfax	Oxford	3,875
	Jericho and Osney	Oxford	4,579
	North	Oxford	3,991
	St Margaret's	Oxford	3,872
	Summertown	Oxford	4,681
	Wolvercote	Oxford	4,341
	Abingdon Abbey and Barton	Vale of White Horse	4,086
	Abingdon Caldecott	Vale of White Horse	3,188
	Abingdon Dunmore	Vale of White Horse	3,599
	Abingdon Fitzharris	Vale of White Horse	3,348
	Abingdon Northcourt	Vale of White Horse	3,595
	Abingdon Ock Meadow	Vale of White Horse	3,629
	Abingdon Peachcroft	Vale of White Horse	3,479
	Appleton and Cumnor	Vale of White Horse	5,296
	Kennington and South Hinksey	Vale of White Horse	3,553
	North Hinksey and Wytham	Vale of White Horse	3,336
	Sunningwell and Wootton	Vale of White Horse	3,534
2. Aldershot BC			77,125
	Blackwater and Hawley	Hart	3,388
	Fleet North	Hart	5,217
	Frogmore and Darby Green	Hart	4,110
	Cove and Southwood	Rushmoor	4,356
	Empress	Rushmoor	5,096
	Fernhill	Rushmoor	4,191
	Grange	Rushmoor	4,152
	Heron Wood	Rushmoor	4,603
	Knellwood	Rushmoor	4,543
	Manor Park	Rushmoor	4,594
	Mayfield	Rushmoor	4,031
	North Town	Rushmoor	5,322
	Rowhill	Rushmoor	4,140
	St John's	Rushmoor	5,128
	St Mark's	Rushmoor	4,883
	Wellington	Rushmoor	5,314
	Westheath	Rushmoor	4,057
3. Arundel and South Downs CC			75,453
	Angmering	Arun	5,870
	Arundel	Arun	3,497
	Findon	Arun	2,115
	Bury	Chichester	1,811
	Easebourne	Chichester	1,962
	Petworth	Chichester	3,869
	Plaistow	Chichester	3,802
	Wisborough Green	Chichester	1,999
	Bramber, Upper Beeding and Woodmancote	Horsham	4,277
	Chanctonbury	Horsham	6,593

Constituency	Ward	District/borough/city/county	Electorate
	Chantry	Horsham	7,682
	Cowfold, Shermanbury and West Grinstead	Horsham	4,273
	Henfield	Horsham	4,097
	Pulborough and Coldwatham	Horsham	4,991
	Steyning	Horsham	5,050
	Bolney	Mid Sussex	2,121
	Hassocks	Mid Sussex	5,775
	Hurstpierpoint and Downs	Mid Sussex	5,669

4. Ashford CC			80,027
	Aylesford Green	Ashford	1,906
	Beaver	Ashford	3,931
	Biddenden	Ashford	2,102
	Bockhanger	Ashford	1,814
	Boughton Aluph and Eastwell	Ashford	2,287
	Bybrook	Ashford	1,944
	Charing	Ashford	2,026
	Downs North	Ashford	1,931
	Downs West	Ashford	1,892
	Godinton	Ashford	4,054
	Great Chart with Singleton North	Ashford	2,571
	Highfield	Ashford	1,905
	Isle of Oxney	Ashford	2,135
	Kennington	Ashford	1,778
	Little Burton Farm	Ashford	2,171
	Norman	Ashford	1,933
	North Willesborough	Ashford	3,862
	Park Farm North	Ashford	2,432
	Park Farm South	Ashford	2,045
	Rolvenden and Tenterden West	Ashford	1,910
	St Michaels	Ashford	1,900
	Singleton South	Ashford	2,240
	South Willesborough	Ashford	2,417
	Stanhope	Ashford	1,745
	Stour	Ashford	3,664
	Tenterden North	Ashford	1,850
	Tenterden South	Ashford	1,916
	Victoria	Ashford	3,675
	Washford	Ashford	2,360
	Weald Central	Ashford	3,889
	Weald East	Ashford	1,737
	Weald South	Ashford	4,208
	Wye	Ashford	1,797

5. Aylesbury CC			79,105
	Aston Clinton	Aylesbury Vale	7,662
	Aylesbury Central	Aylesbury Vale	2,713
	Bedgrove	Aylesbury Vale	6,887
	Coldharbour	Aylesbury Vale	6,710
	Elmhurst and Watermead	Aylesbury Vale	6,450
	Gatehouse	Aylesbury Vale	4,175
	Haddenham	Aylesbury Vale	6,677
	Mandeville and Elm Farm	Aylesbury Vale	6,318
	Oakfield	Aylesbury Vale	3,941
	Quarrendon	Aylesbury Vale	3,842
	Southcourt	Aylesbury Vale	4,567
	Walton Court and Hawkslade	Aylesbury Vale	4,096
	Wendover	Aylesbury Vale	6,215
	Icknield	Wycombe	2,484
	The Risboroughs	Wycombe	6,368

Constituency	Ward	District/borough/city/county	Electorate
6. Banbury CC			79,576
	Adderbury	Cherwell	2,300
	Banbury Calthorpe	Cherwell	4,076
	Banbury Easington	Cherwell	5,917
	Banbury Grimsbury and Castle	Cherwell	7,225
	Banbury Hardwick	Cherwell	5,954
	Banbury Neithrop	Cherwell	4,319
	Banbury Ruscote	Cherwell	5,517
	Bicester East	Cherwell	4,058
	Bicester North	Cherwell	4,565
	Bicester South	Cherwell	3,608
	Bicester Town	Cherwell	3,642
	Bicester West	Cherwell	5,274
	Bloxham and Bodicote	Cherwell	4,765
	Caversfield	Cherwell	1,889
	Cropredy	Cherwell	2,253
	Deddington	Cherwell	2,126
	Fringford	Cherwell	1,867
	Hook Norton	Cherwell	2,091
	Sibford	Cherwell	2,171
	The Astons and Heyfords	Cherwell	3,790
	Wroxton	Cherwell	2,169
7. Basingstoke BC			75,470
	Basing	Basingstoke and Deane	6,643
	Brighton Hill North	Basingstoke and Deane	3,826
	Brighton Hill South	Basingstoke and Deane	3,819
	Brookvale and Kings Furlong	Basingstoke and Deane	4,114
	Buckskin	Basingstoke and Deane	4,439
	Chineham	Basingstoke and Deane	6,563
	Eastrop	Basingstoke and Deane	3,633
	Grove	Basingstoke and Deane	4,499
	Hatch Warren and Beggarwood	Basingstoke and Deane	6,514
	Kempshott	Basingstoke and Deane	5,670
	Norden	Basingstoke and Deane	5,935
	Popley East	Basingstoke and Deane	3,515
	Popley West	Basingstoke and Deane	3,340
	Rooksdown	Basingstoke and Deane	1,999
	South Ham	Basingstoke and Deane	6,341
	Winklebury	Basingstoke and Deane	4,620
8. Beaconsfield CC			75,320
	Beaconsfield North	South Bucks	3,787
	Beaconsfield South	South Bucks	2,643
	Beaconsfield West	South Bucks	2,333
	Burnham Beeches	South Bucks	1,032
	Burnham Church	South Bucks	3,918
	Burnham Lent Rise	South Bucks	3,371
	Denham North	South Bucks	2,298
	Denham South	South Bucks	2,665
	Dorney and Burnham South	South Bucks	1,242
	Farnham Royal	South Bucks	4,174
	Gerrards Cross East and Denham South West	South Bucks	1,393
	Gerrards Cross North	South Bucks	2,398
	Gerrards Cross South	South Bucks	2,631
	Hedgerley and Fulmer	South Bucks	1,059
	Iver Heath	South Bucks	3,725
	Iver Village and Richings Park	South Bucks	4,033
	Stoke Poges	South Bucks	4,044
	Taplow	South Bucks	1,319
	Wexham and Iver West	South Bucks	2,492

Constituency	Ward	District/borough/city/county	Electorate
	Bourne End-cum-Hedsor	Wycombe	4,313
	Flackwell Heath and Little Marlow	Wycombe	5,804
	Marlow North and West	Wycombe	6,731
	Marlow South East	Wycombe	4,020
	The Wooburns	Wycombe	3,895
9. Bexhill CC			76,559
	Central	Rother	4,056
	Collington	Rother	3,813
	Crowhurst	Rother	2,058
	Kewhurst	Rother	3,953
	Old Town	Rother	3,014
	Sackville	Rother	3,655

Glossary

Assistant Commissioner	Independent person appointed at the request of the BCE to assist it with the discharge of its functions.
Borough constituency abbreviated to BC	Parliamentary constituency containing a predominantly urban area.
County constituency abbreviated to CC	Parliamentary constituency containing more than a small rural element.
Designation	Classification as either a borough constituency or as a county constituency.
Electorate	The number of registered Parliamentary electors in a given area.
(Statutory) Electorate range	The statutory rule that requires the electorate of every constituency (as at the review date) to be within 5% of the UK electoral quota.
Final recommendations	The recommendations submitted in a formal final report to the Government at the end of a review. They may – or may not – have been revised since the initial proposals in any given area.
General review	Major review of all Parliamentary constituencies in England at the same time. From 2011 all Parliamentary constituency reviews are general reviews.
Initial proposals	First formal proposals published by the BCE during the review for public consultation.
Public hearing	Formal opportunity in a given area for people to make oral representations, chaired by an Assistant Commissioner. In each region of England there may be no fewer than two and no more than five hearings, and each may last a maximum of two days.
Representations	The views provided by an individual, group or organisation to the BCE on its initial or revised proposals, either for or against, including counter-proposals and petitions.
Review date	Proposals must be based on the numbers of electors on the electoral registers on this date, which is defined in the Act as the date two years and ten months before the final report is to be submitted (i.e. 1 December 2010 for the review that is to conclude with a final report by 1 October 2013).
Revised proposals	The initial proposals as subsequently revised.
UK electoral quota	The average number of electors in a constituency, found by dividing the total electorate of the UK (less that of the four specific ‘protected’ constituencies) by 596.
Unitary authority	An area where there is only one tier of local council (above any parish or town council). This contrasts with those ‘shire district’ areas that have two tiers (i.e. both a non-metropolitan county council and a district/borough/city council).
