Initial proposals summary

Who we are and what we do

The Boundary Commission for England is an independent and impartial non-departmental public body which is responsible for reviewing Parliamentary constituency boundaries in England.

2013 Review

We have the task of periodically reviewing the boundaries of all the Parliamentary constituencies in England. We are currently conducting a review on the basis of new rules laid down by Parliament. These rules involve a significant reduction in the number of constituencies in England (from 533 to 502), and require that every constituency – apart from two specified exceptions – must have an electorate that is no smaller than 72,810 and no larger than 80,473 (please refer to *A guide to the 2013 Review* for details of how this has been calculated).

Initial proposals

We have now completed the first stage of the review process and have published our initial proposals for the new Parliamentary constituency boundaries in England. Information about the proposed constituencies is now available on our website or in hard copy at a local ‘place of deposit’ near you.

What is changing in the West Midlands?

The West Midlands region has been allocated 54 constituencies – a reduction of five from the current arrangement.

Our proposals leave ten of the 59 existing constituencies unchanged.

As it has not always been possible to allocate whole numbers of constituencies to individual counties, we have grouped some local authority areas into sub-regions. The number of constituencies allocated to each sub-

region is determined by the electorate of the combined local authorities.

Sub-region	Existing allocation	Proposed allocation
Herefordshire, Shropshire, Telford and Wrekin, and Worcestershire	13	12
Staffordshire and Stoke-on-Trent	12	11
Warwickshire and West Midlands	34	31

In Shropshire, and Telford and Wrekin, two of the five existing constituencies are unchanged and in Worcestershire two of the six existing constituencies are unaltered.

We have proposed one constituency which contains electors from both Shropshire and Herefordshire which includes the towns of Ludlow and Leominster. Another constituency contains electors from both Herefordshire and Worcestershire combining the towns of Ledbury and Great Malvern.

In Staffordshire and Stoke-on-Trent, three of the existing 12 constituencies are unchanged, and in a number of other constituencies we have made only minor changes as necessary to enable us to comply with the new rules.

There are two county boundary crossings between Warwickshire and the metropolitan boroughs of the West Midlands. One of these creates a constituency where an area in the south of the Borough of Solihull, including the town of Dorridge, is combined with an area of Warwickshire which includes the town of Kenilworth. The other creates a constituency that combines electors from the Shard End

ward of the City of Birmingham, the east of the Borough of Solihull, and the Coleshill area of Warwickshire.

The three existing Coventry constituencies are unchanged.

Apart from Coventry, all of the metropolitan boroughs of the West Midlands contain at least parts of two constituencies that cross the boundary with another borough, and Sandwell contains five such constituencies.

How to have your say

We are consulting on our initial proposals for a 12-week period, from 13 September 2011 to 5 December 2011. We encourage everyone to use this opportunity to contribute to the design of the new constituencies – the more public views we hear, the more informed our decisions will be when analysing all the views we receive.

We ask everyone wishing to contribute to the design of the new constituencies to first read the *Initial proposals* report and accompanying maps before responding to us.

In particular, we would like to know:

- if you agree in full, in part or not at all with our initial proposals for the West Midlands region;
- which sub-regions you agree with and why;
- which sub-regions you disagree with and why; and
- if you can propose alternatives for areas you disagree with that meet the statutory rules we set out in our report.

You can find more details of how to respond on our website, or you can write to us direct or email westmidlands@bcommengland.x.gsi.gov.uk. You can also find details of where and when we will be holding public hearings in your area on our website.

1. What is the Boundary Commission for England?

1. The Boundary Commission for England (BCE) is an independent and impartial non-departmental public body, which is required by Parliament to review Parliamentary constituency boundaries in England. We conduct a review of all the constituencies in England every five years. Our role is to make recommendations to Parliament for new constituency boundaries.

2. The Chair of the Commission is the Speaker of the House of Commons, but by convention he or she does not participate in the formulation of the Commission's recommendations, nor in the conduct of the review. The Deputy Chair, Mr Justice Sales, and two further Commissioners take decisions on recommendations for new constituency boundaries. Further information about the Commissioners can be found in the 'About us' section of our website.¹

3. Our website also contains all the information needed to view and comment on our initial proposals. You can also contact us with any general enquiries by emailing information@bcommengland.x.gsi.gov.uk, by calling 020 7276 1102, or by writing to:

2. Background to the 2013 Review

4. In February 2011, the UK Parliament passed legislation² stating that all four Boundary Commissions covering the UK (there are separate Commissions for Scotland, Wales, and Northern Ireland) must conduct a review of Parliamentary constituency boundaries, and make recommendations to the Government, by October 2013. The four Commissions work separately, and this report covers only the work of the BCE and, in particular, introduces our initial proposals for the West Midlands region.

5. Parliamentary constituency boundaries are important, as they define the area that a Member of Parliament will represent once elected to Parliament. The next General Election is expected to be in 2015 (as, at the time of writing and subject to legislation, the Government intends to introduce ‘fixed-term’ Parliaments – i.e. that last for five years). Therefore any recommendations we make, if accepted, are likely to be used for the first time at the General Election in 2015.

6. The legislation we work to states that there will be 600 Parliamentary constituencies covering the UK – a reduction of 50 from the current number. For England, that means that the number of constituencies must reduce from 533 to 502. There are also new rules that the Commission has to adhere to when conducting the Review – a full set of rules can be found in the BCE’s *A guide to the 2013 Review*,³ published in the summer of 2011, but they are also summarised later in this chapter. Most significantly, the rules state that every constituency we recommend (with the exception of two covering the Isle of Wight) must contain between 72,810 and 80,473 electors.

7. This is a significant change to the old rules under which Parliamentary boundary reviews took place, where achieving as close as possible to the average number of electors in each constituency was an aim but not an overriding legal necessity. For example, in England, constituencies currently range in electorate size from 55,077 to 110,924. Achieving a more even distribution of electors in every constituency across England, together with the reduction in the total number of constituencies, means that a significant amount of change to the existing map of constituencies is inevitable.

8. *A guide to the 2013 Review* contains further detailed background, and explains all the policies and procedures that we are following in conducting the Review, in greater depth than in this consultation document. We encourage anyone wishing to be involved in the Review to read this document to enable greater understanding of the rules and constraints placed on the Commission, especially if they are intending to comment on our initial proposals.

The rules in the legislation

9. The rules contained in the legislation state that every constituency in England (except two covering the Isle of Wight) must have an electorate of between 72,810 and 80,473 – that is 5% either side of the **electoral quota of 76,641**. The legislation also states that when deciding on boundaries, the Commission may also take into account:

- a. special geographical considerations, including the size, shape and accessibility of a constituency;

² The Parliamentary Voting System and Constituencies Act 2011, available at www.legislation.gov.uk

³ Available at www.consultation.boundarycommissionforengland.independent.gov.uk/publications and at all places of deposit

- b. local government boundaries as they existed on 6 May 2010;
- c. boundaries of existing constituencies; and
- d. any local ties that would be broken by changes in constituencies.

10. It is essential to understand that none of the factors mentioned in the list above overrides the necessity to achieve an electorate in each constituency that is within the range allowed, as explained previously. In particular, it should be noted that we are obliged to take into account local government boundaries as they existed in May 2010. Our initial proposals for the region and the accompanying maps are based on the wards as they existed in May 2010. *A guide to the 2013 Review* outlines further our policy on how, and to what extent, we take into account local government boundaries. We propose to use the local government districts and wards as at May 2010 as the basic building blocks for construction of constituencies.

11. We have also taken into account the boundaries of existing constituencies so far as we can. We have tried to retain existing constituencies as part of our initial proposals where possible, so long as the other factors can also be satisfied. As mentioned earlier in this chapter, because of the scale of change required to fulfil the obligations imposed on us by the new rules, this has proved difficult. Our initial proposals retain 17% of the existing constituencies in the West Midlands region – the remainder are new constituencies (although in a number of cases we have been able to limit the changes to existing constituencies, making only minor changes as necessary to enable us to comply with the new rules).

The use of the regions used for European elections

12. Our proposals are based on the nine regions used for European elections. This report relates to the West Midlands region. There are eight other separate reports containing our initial proposals for the other regions. In early 2011, following a consultation exercise on the issues, we decided to use these regions as a basis for working out our initial proposals. You can find more details in *A guide to the 2013 Review* and on our website. While this approach does not prevent anyone from making proposals to us that cross regional boundaries (for example, between the West Midlands region and the East Midlands region), in light of the reasons we have set out for the region-based approach and the level of support for this approach expressed in response to our consultation, we would need to have compelling reasons provided to us in order to persuade us to depart from the region-based approach.

Timetable for the 2013 Review

Stage one – initial proposals

13. In March 2011 we published breakdowns of the electorate for each ward, local authority area, and existing constituency, which were prepared using electorate data provided by local authorities and the Office for National Statistics. These breakdowns are available on our website.⁴ The Commission spent a number of months considering the factors outlined above and drawing up our initial proposals. We published our initial proposals for consultation for each of England's nine regions on 13 September 2011.

⁴ At www.consultation.boundarycommissionforengland.independent.gov.uk

Stage two – consultation on initial proposals

14. We are consulting on our initial proposals for 12 weeks, until 5 December 2011. Chapter 4 outlines how you can contribute during the consultation period. We are also hosting four public hearings in the West Midlands, at which people can give their views (see chapter 4). Once the consultation has closed, the Commission will collate all the responses received, including transcripts of the public hearings.

Stage three – consultation on representations received

15. The legislation requires us to publish all the representations we receive on our initial proposals. This publication will mark the start of a four-week period, likely to be in spring 2012, during which anyone can make further written representations with respect to the representations we have received and published. Once we have all the representations from both consultation periods, the Commission will analyse those representations and decide whether changes should be made to the initial proposals.

Stage four – publication of revised proposals

16. If we decide that the evidence presented to us is such that it is appropriate to change our initial proposals, then we must (under the legislation) publish our revised proposals for the areas concerned, and consult on them for a further period of eight weeks. This is likely to be towards the end of 2012. During that consultation period, there is no provision for further public hearings, nor is there a repeat of the four-week period for commenting on the representations of others.

Stage five – final recommendations

17. Finally, following the consultation on revised proposals, we will consider all the evidence received at this stage, and

throughout the Review, before making final recommendations to the Government. The legislation states we must do this by 1 October 2013. Further details about what the Government and Parliament must do to implement our recommendations are contained in *A guide to the 2013 Review*.

18. At the launch of each stage of consultation we will be taking all reasonable steps to publicise our proposals so that as many people as possible are aware of the consultation, and can take the opportunity to contribute to our review of constituencies.

3. Initial proposals for the West Midlands region

19. The West Midlands region comprises the counties of Herefordshire, Shropshire, Staffordshire, Warwickshire, and Worcestershire which are a mix of county and district councils, the unitary authorities of Telford and Wrekin, and Stoke-on-Trent and the metropolitan boroughs that form the former Metropolitan County of the West Midlands. The region currently has 59 Parliamentary constituencies. Of these constituencies, only 20 have electorates within 5% of the electoral quota. The electorates of 38 constituencies currently fall below the 5% limit, while the electorate of just one falls above.

20. As discussed in chapter 2, following our consultation on using the regions as the basis of our initial proposals, we have taken an initial decision that the West Midlands region is to be allocated 54 constituencies, a reduction of five.

21. In seeking to produce initial proposals for the region in which 54 constituencies, each with an electorate within 5% of the electoral quota, could be proposed, we first considered whether, and how, the local authorities could usefully be grouped into sub-regions. We were mindful of seeking to respect, where we could, the external boundaries of the local authorities. Our approach in grouping local authority areas together in sub-regions was based on both trying to ensure the correct allocation of constituencies to the region and facilitating the achievement of the 5% equality target, whilst minimising the difficulties that result from the electoral size of some of the wards in the West Midlands.

22. Our division of the West Midlands region into sub-regions is a purely practical approach. Respondents to our consultation are welcome to make counter-proposals based on other groupings of counties and unitary authorities, if the statutory factors can be better reflected in those counter-proposals.

23. If considered on its own, the former Metropolitan County of West Midlands, which has an electorate of over 1.9 million, would result in the allocation of 25.3 constituencies, which could be rounded down to 25. However, we considered that this would still be difficult to achieve given the very large electoral size of the wards in the West Midlands. The neighbouring county of Warwickshire has just under 410,000 electors. It is not possible to develop proposals in which either five or six whole constituencies, each with electorates within 5% of the electoral quota, are contained within the county boundary. The West Midlands and the County of Warwickshire have historic links. We considered the pairing of these two in one sub-region, to which we have allocated 31 constituencies, which is three fewer than at present, to be a suitable solution. Consequently, our proposals include two constituencies that cross the boundary between the two authorities.

24. Once we had decided upon this grouping, it led us to consider other groupings in the region.

25. The electorate of Staffordshire, including the electorate of the City of Stoke-on-Trent, at just over 840,000 allowed us to develop a proposal in which 11 constituencies are allocated to the group.

26. The electorates of Herefordshire, Worcestershire, Shropshire, and Telford and Wrekin are such that it is not possible to allocate a whole number of constituencies with electorates within 5% of the electoral quota to each. It was therefore necessary to group them in one sub-region with a total electorate of over 920,000 to which we allocated 12 constituencies, which is one fewer than at present. One crosses the county boundary between Shropshire and Herefordshire and another crosses the county boundary between Herefordshire and Worcestershire.

27. The use of the term ‘ward’ throughout this document should be taken to mean electoral division in reference to the county unitary authority of Shropshire.

Initial proposals for the Herefordshire, Shropshire, Telford and Wrekin, and Worcestershire sub-region

28. There are currently 13 constituencies in this sub-region, six of which (North Shropshire, Shrewsbury and Atcham, Bromsgrove, West Worcestershire, Worcester, and Wyre Forest) have electorates within 5% of the electoral quota. The electorates of all the remaining constituencies in the sub-region are below the 5% limit. We propose to allocate 12 constituencies to the sub-region, a reduction of one from the current arrangement.

29. We considered whether we could leave unchanged any of the six existing constituencies that had an electorate within 5% of the electoral quota. In developing proposals in which all constituencies are within 5% of the electoral quota we propose to keep four – North Shropshire, Shrewsbury and Atcham, Worcester, and Wyre Forest – unchanged. We do, however, propose a name change for the existing Shrewsbury and Atcham constituency to Shrewsbury as the Shropshire (Structural Change) Order 2008 created Shropshire as a unitary authority and the Borough of Shrewsbury and Atcham no longer exists.

30. While it was possible for the North Shropshire, and Shrewsbury and Atcham constituencies to remain unchanged, both The Wrekin and Telford constituencies are around 7,000 electors below the 5% limit. Our proposed Telford North and The Wrekin constituency includes the four urban wards to the north of the M54 that are currently

contained in the Telford constituency. As a consequence of this, our proposed Bridgnorth and Telford South constituency now contains the areas around the towns of Shifnal and Albrighton to the east, which are in the existing Wrekin constituency, and Bridgnorth and Much Wenlock to the south and west, which are in the existing Ludlow constituency.

31. As a consequence, we propose a new Ludlow and Leominster constituency which crosses the county boundary between Shropshire and Herefordshire. This is a geographically large constituency, but there are strong road links along the A49 which connects the two towns named in the constituency. Our proposed constituency includes the remaining wards that are in the existing Ludlow constituency and ten wards that are in the existing North Herefordshire constituency. It also extends to the south west of Herefordshire to include the two Golden Valley wards of the existing Hereford and South Herefordshire constituency.

32. In the south of Herefordshire we propose a Hereford constituency which contains the towns of Hereford and Ross-on-Wye, whilst including the remaining wards of the existing Hereford and South Herefordshire constituency. It also includes the two wards of Credenhill, and Burghill, Holmer and Lyde to the north, and the wards of Backbury and Old Gore to the east, all of which are in the existing North Herefordshire constituency.

33. Our changes have led us to propose a new Malvern and Ledbury constituency which includes eight wards from the existing North Herefordshire constituency. This constituency crosses the boundary between Herefordshire and Worcestershire, and also contains 15 wards from the existing West Worcestershire constituency and three wards from the existing Mid Worcestershire constituency.

34. In the south of Worcestershire, we propose an Evesham constituency which spans the width of Worcestershire in the south, extending to the border of the Borough of Redditch and extending to, but not including, the town of Great Malvern and the City of Worcester. This constituency includes 12 wards that are currently in the West Worcestershire constituency and most of the wards in the existing Mid Worcestershire constituency. It also includes the Inkberrow ward, which is in the existing Redditch constituency. The Worcester constituency is unchanged.

35. In the north of the county the Wyre Forest constituency remains unchanged. As a consequence of our changes elsewhere, we propose a new Bromsgrove and Droitwich constituency which extends further south than the existing Bromsgrove constituency to include the town of Droitwich.

36. The towns of Alvechurch and Hollywood are now included in our proposed Redditch constituency, having been transferred from the Bromsgrove constituency.

Initial proposals for the Staffordshire and Stoke-on-Trent sub-region

37. There are currently 12 constituencies in this sub-region, four of which (Burton, Cannock Chase, Lichfield, and South Staffordshire) have electorates within 5% of the electoral quota. The electorates of the remaining constituencies in this area are all below the 5% limit.

38. We considered whether we could leave unchanged any of the existing constituencies that have an electorate within 5% of the electoral quota. In developing proposals in which all the constituency electorates are within 5% of the electoral quota we propose to keep the three constituencies of Burton, Cannock Chase, and South Staffordshire

unchanged. We propose to allocate 11 constituencies to this sub-region, a reduction of one from the current arrangement.

39. The electorate of the District of Staffordshire Moorlands allowed us to propose a constituency which contains the whole of the District of Staffordshire Moorlands, and no wards from another district, by including five wards from the existing Stone constituency. The Newchapel ward of the Borough of Newcastle-under-Lyme has been included in a new Kidsgrove and Tunstall constituency, from the existing Staffordshire Moorlands constituency.

40. The electorate of the City of Stoke-on-Trent is too small to allow for three whole constituencies to be created within its boundary. In respecting the southern boundary of the City of Stoke-on-Trent, we propose a largely unchanged Stoke-on-Trent South constituency, save for the inclusion of the Stoke and Trent Vale ward from the existing Stoke-on-Trent Central constituency. The three City of Stoke-on-Trent wards (Burslem South, East Valley, and Norton and Bradeley) have been included in the Stoke-on-Trent Central constituency from the existing Stoke-on-Trent North constituency.

41. We propose a new Kidsgrove and Tunstall constituency which has been created from the remaining seven wards of the existing Stoke-on-Trent North constituency and six wards of the existing Newcastle-under-Lyme constituency. Also the single ward of Madeley of the Borough of Newcastle-under-Lyme has been included from the existing Stone constituency.

42. Our proposed Newcastle-under-Lyme and Stone constituency contains the remaining wards from the existing constituency of Newcastle-under-Lyme and seven of the wards in the existing Stone constituency,

which no longer exists under our proposals. It consists of most of the towns of Newcastle-under-Lyme, and Stone and its surrounding area.

43. We propose a new Stafford constituency which contains all of the existing Stafford constituency, apart from the one Borough of Stafford ward of Haywood and Hixon, which is now included in the Lichfield constituency. Our proposed Stafford constituency also contains five wards from the existing Stone constituency.

44. There are minor changes to the existing constituencies of Lichfield and Tamworth. The existing constituency of Tamworth is largely unaltered, apart from the inclusion of the Hammerwich ward of the District of Lichfield from the existing Lichfield constituency. The ward of Haywood and Hixon of the Borough of Stafford has been included in our proposed Lichfield constituency from the Stafford constituency, as described above.

Initial proposals for the Warwickshire and the West Midlands sub-region

45. There are currently 34 constituencies in this sub-region, which includes the County of Warwickshire, the cities of Birmingham, Coventry and Wolverhampton and the metropolitan boroughs of Dudley, Sandwell, Solihull, and Walsall. These cities and the metropolitan boroughs formed the previous Metropolitan County of West Midlands.

46. Ten constituencies have electorates within 5% of the electoral quota: Birmingham, Hall Green; Birmingham, Hodge Hill; Birmingham, Ladywood; Birmingham, Selly Oak; Birmingham, Yardley; Coventry North East; Coventry North West; Coventry South; Solihull; and Sutton Coldfield. The electorates of all but one of the remaining 24 constituencies are below the 5% limit, and in many cases they are significantly lower. With the reduction in the

number of constituencies across England this sub-region is now allocated 31 constituencies under our proposals.

47. We considered whether we could leave unchanged any of the ten existing constituencies that have an electorate within 5% of the electoral quota. However, in developing proposals in which all the constituency electorates are within 5% of the electoral quota, we have altered all but three of these constituencies. We considered that it would not be necessary to include wards from the City of Coventry when creating constituencies throughout the rest of the sub-region and we therefore propose that the three Coventry constituencies remain unchanged.

48. The ward electorates in the West Midlands metropolitan boroughs are large. In Birmingham, for example, the average ward electorate is particularly large at 18,293, ranging from 16,075 to 19,861. It was therefore a challenge to ensure that all constituencies are within 5% of the electoral quota whilst not dividing a local government ward between constituencies. This would be contrary to our stated policy, as set out in *A guide to the 2013 Review*.

49. We consider that the electorates of all the boroughs in the West Midlands are such that it is not practicable to create constituencies where any borough, apart from Coventry, has a whole number of constituencies that are contained entirely within its boundaries. We have therefore further crossed the boundaries of a number of the metropolitan boroughs: Dudley, Solihull, and Wolverhampton are each divided between four constituencies and Sandwell has been divided between six constituencies.

50. Currently, Birmingham has ten constituencies. Our proposals create

seven constituencies that are wholly contained within the City of Birmingham: Birmingham Edgbaston, Birmingham Hall Green, Birmingham Ladywood, Birmingham Northfield, Birmingham Perry Barr, Birmingham Yardley, and Sutton Coldfield. There are two further constituencies that are almost entirely contained within Birmingham: Birmingham Erdington, which includes one ward, Castle Bromwich, of the Borough of Solihull, and Birmingham Harborne, which includes one ward, Old Warley, of the Borough of Sandwell. Four City of Birmingham wards, Oscott, Shard End, Sheldon, and Soho, are included in constituencies that are largely made up of wards from other boroughs.

51. As mentioned previously, the very large ward electorates make it difficult to combine wards to create constituencies in the City of Birmingham that do not divide wards and to ensure that all constituencies are within the 5% limit. Five of our proposed Birmingham constituencies are largely unchanged with each including three of the four wards that are in the existing constituency.

52. Our proposed Birmingham Northfield constituency retains the Kings Norton, Longbridge, and Northfield wards, but includes the ward of Bournville from the existing Birmingham, Selly Oak constituency. Similarly, our new Birmingham Perry Barr constituency largely reflects the composition of the existing constituency by retaining the Handsworth Wood, Lozells and East Handsworth, and Perry Barr wards. It additionally includes the Aston ward from the existing Birmingham, Ladywood constituency.

53. Our proposed Birmingham Yardley constituency retains the Acocks Green, South Yardley, and Stechford and Yardley North wards, and also includes the Bordesley Green ward from the existing Birmingham, Hodge Hill constituency. The Sutton Coldfield

constituency retains the Sutton Four Oaks, Sutton Trinity, and Sutton Vesey wards and includes the ward of Kingstanding, which is in the existing Birmingham, Erdington constituency.

54. Our new Birmingham Erdington constituency is also largely unchanged and retains the Erdington, Stockland Green, and Tyburn wards. It also includes the Sutton New Hall ward from the existing Sutton Coldfield constituency and the Borough of Solihull ward of Castle Bromwich from the existing Meriden constituency.

55. Our proposed Birmingham Edgbaston constituency contains just one ward, Edgbaston, that is in the existing Birmingham, Edgbaston constituency. The other wards that make up the new constituency are the two wards of Moseley and Kings Heath, and Sparkbrook, from the existing Birmingham, Hall Green constituency and the ward of Selly Oak from the existing Birmingham, Selly Oak constituency.

56. Our proposed Birmingham Hall Green constituency retains the two wards of Hall Green and Springfield and includes the two wards of Billesley and Brandwood, from the existing Birmingham, Selly Oak constituency. Similarly, our new Birmingham Ladywood constituency retains the two wards of Ladywood and Nechells and includes two wards, Hodge Hill and Washwood Heath, which are in the existing Birmingham, Hodge Hill constituency.

57. Our proposed Birmingham Harborne constituency includes the wards of Bartley Green, Harborne, and Quinton from the existing Birmingham, Edgbaston constituency. It also includes the ward of Weoley from the existing Birmingham, Northfield constituency and the Borough of Sandwell ward of Old Warley from the existing Warley constituency.

58. We consider that the use of commas in existing constituency names is currently inconsistent and sometimes does not aid clarity. We have therefore taken a policy decision that commas will no longer be included in the names of constituencies and this is reflected in our proposed constituency names within the City of Birmingham.

59. The Borough of Walsall currently has three whole constituencies. Our proposals also create three constituencies in the borough. The Walsall North constituency is wholly contained within the borough and contains five wards that are in the existing Aldridge-Brownhills constituency which, under our proposals, no longer exists and three wards that are in the existing Walsall North constituency.

60. Due to our changes, our new Walsall West constituency includes four wards from the existing Walsall North constituency and one ward, Bilston East of the City of Wolverhampton, which is in the existing Wolverhampton South East constituency. Walsall South includes four wards of the existing Walsall South constituency, the Streetly ward from the existing Aldridge-Brownhills constituency, the Great Barr with Yew Tree ward from the Borough of Sandwell, which is in the existing West Bromwich East constituency, and the Oscott ward, of the City of Birmingham, which is in the existing Birmingham, Perry Barr constituency.

61. The City of Wolverhampton currently has three constituencies, one of which contains one ward, Coseley East, from the Borough of Dudley. Our proposals create two constituencies, Wolverhampton North and Wolverhampton South, which are wholly contained within the City of Wolverhampton.

62. As a consequence of our changes, Wolverhampton North contains seven wards from the existing Wolverhampton North East constituency and the two wards of Bilston North and East Park that are in the existing Wolverhampton South East constituency. Our proposed Wolverhampton South constituency contains all the wards that are in the existing Wolverhampton South West constituency, but with the inclusion of the wards of Blakenhall and Ettingshall, which are in the existing Wolverhampton South East constituency. Two City of Wolverhampton wards, Bilston East and Spring Vale, are included in constituencies that largely contain wards from other boroughs.

63. The Borough of Dudley currently has three constituencies, one of which is divided between the boroughs of Dudley and Sandwell. The Cosely East ward of the Borough of Dudley is in the existing Wolverhampton South East constituency. Our proposals create one constituency, Halesowen and Stourbridge, which is entirely contained within the borough, including four wards each from the existing Halesowen and Rowley Regis, and Stourbridge constituencies.

64. Our changes have led us to propose a Dudley West constituency that includes three wards from the existing Dudley North constituency, three wards from the existing Dudley South constituency and two wards from the existing Wolverhampton South East constituency, which are the Borough of Dudley ward of Coseley East and the City of Wolverhampton ward of Spring Vale.

65. Our proposed Dudley East and Oldbury, and Dudley South and Rowley Regis constituencies both cross the borough boundary between Dudley and Sandwell. Dudley East and Oldbury comprises four wards each from the boroughs of Dudley and Sandwell. These eight wards are currently

located in four different constituencies (Dudley North, Dudley South, West Bromwich East, and West Bromwich West). The new Dudley South and Rowley Regis constituency comprises five wards of the Borough of Dudley and three wards of the Borough of Sandwell, which had been in the existing Halesowen and Rowley Regis constituency.

66. The Borough of Sandwell currently has three constituencies and a fourth which is divided between the boroughs of Dudley and Sandwell. Our proposals create one constituency, Wednesbury, which is wholly contained within the borough, comprising four wards each from the existing West Bromwich West and West Bromwich East constituencies.

67. Our proposed Smethwick constituency contains six of the seven wards from the existing Warley constituency, the West Bromwich Central ward from the existing West Bromwich East constituency and the Soho ward from the City of Birmingham, which is in the existing Birmingham, Ladywood constituency. The two cross-borough boundary constituencies of Dudley East and Oldbury, and Dudley South and Rowley Regis have been described above.

68. The Borough of Solihull currently has two constituencies. Our proposals create two constituencies which are largely contained within the borough, one of which includes three wards from the County of Warwickshire.

69. The Meriden constituency no longer includes the ward of Castle Bromwich of the Borough of Solihull, which is now included in the Birmingham Erdington constituency: neither does it include three wards in the south of the existing constituency, which have been included in the Kenilworth and Dorridge constituency, which, apart from crossing the boundary between the Borough of Solihull and the District of Stratford-on-Avon, and the

boundary between the Borough of Solihull and the District of Warwick, also crosses the county boundary between Warwickshire and the West Midlands. There are major roads, such as the M42 and A446, that link the two parts of the constituency across the county boundary.

70. The proposed Meriden constituency includes one ward, Shard End, from the City of Birmingham, which was in the existing Birmingham, Hodge Hill constituency, and the three Borough of North Warwickshire wards of Coleshill North, Coleshill South, and Water Orton, which are in the existing North Warwickshire constituency. This is where the second crossing of the county boundary takes place as we consider that the town of Coleshill in Warwickshire is geographically close to the north of the Meriden constituency.

71. The Solihull constituency retains six out of the eight existing Solihull constituency wards. The two wards that are no longer in the constituency are Shirley South and Shirley West, which are included in our proposed Kenilworth and Dorridge constituency. In the north of the constituency, the City of Birmingham ward of Sheldon is included from the existing Birmingham, Yardley constituency.

72. In Coventry, none of the three existing constituencies needs to be altered as they are each within 5% of the electoral quota. We therefore propose that these three constituencies, which are wholly contained within the city, should remain unchanged.

73. Warwickshire currently contains six whole constituencies. Our proposals create five constituencies that are wholly contained within the county and one constituency, Kenilworth and Dorridge, which crosses the county boundary between Warwickshire and the West Midlands. It contains five wards from the south of the Borough of Solihull, six

wards from the District of Warwick and the Tanworth ward from the District of Stratford-on-Avon. As a consequence of the inclusion of the Borough of Solihull wards, our proposed Kenilworth and Dorridge constituency does not include the wards around the town of Southam in the east of the District of Stratford-on-Avon, currently in the Kenilworth and Southam constituency.

74. Our proposed North Warwickshire constituency includes the three wards of Arley and Whiteacre, Hartshill, and Weddington, which are in the existing Nuneaton constituency. These transfers compensate for the inclusion of the three North Warwickshire wards in the cross-county boundary constituency of Meriden, as described earlier.

75. Our proposed Rugby constituency extends further south to include five District of Stratford-on-Avon wards that are in the existing Kenilworth and Southam constituency. As a consequence, the Borough of Rugby ward of Ryton-on-Dunsmore and the area of the north of the existing Rugby constituency are now included in our proposed Nuneaton constituency.

76. To increase the electorate of the Warwick and Leamington constituency, the two District of Warwick wards of Cubbington and Radford Semele, which are in the existing Kenilworth and Southam constituency, are included in Warwick and Leamington, as are the two District of Stratford-on-Avon wards of Claverdon and Snitterfield. In return our proposed Stratford-upon-Avon constituency gains the three District of Stratford-on-Avon wards of Burton Dassett, Kineton, and Wellesbourne that are in the existing Kenilworth and Southam constituency.

77. The name of the Stratford-upon-Avon constituency has been changed from Stratford-on-Avon to reflect the name of the largest town in the constituency and to avoid confusion with the name of the district.

4. How to have your say

78. We are consulting on our initial proposals for a 12-week period, from 13 September 2011 to 5 December 2011. We encourage everyone to use this opportunity to contribute to the design of the new constituencies – the more public views we hear, the more informed our decisions will be when analysing all the views we receive.

79. In particular, we ask people to bear in mind the tight constraints placed on the Commission by the rules set by Parliament, as well as the decisions we have taken regarding adoption of a regional approach and use of local government wards discussed in chapter 2 and in the BCE's *A guide to the 2013 Review*. Most importantly:

- a. We cannot recommend constituencies that have electorates that are more or less than 5% from the electoral quota (apart from the two covering the Isle of Wight).
- b. We are basing our initial proposals on local government ward boundaries (as at May 2010) as the building blocks of constituencies. Our view is that, in the absence of exceptional and compelling circumstances, it would not be appropriate to divide wards in cases where it is possible to construct constituencies that meet the 5% statutory requirement without doing so.
- c. We have constructed constituencies within regions, so as not to cross regional boundaries. Compelling reasons would need to be given to persuade us that we should depart from this approach.

80. These issues mean that we encourage people who are making a representation on a specific area to bear in mind the knock-on effects of their proposals. The Commission must look at the recommendations for new constituencies across the whole region (and, indeed, across England). We therefore

ask everyone wishing to respond to our consultation to bear in mind the impact of their counter-proposals on neighbouring constituencies, and on those further afield across the region.

How can you give us your views?

81. There are two ways you can give us your views on our initial proposals: in writing (including by email or through the online form on our website), or in person, at one of a series of public hearings we are conducting during the consultation period. People are welcome to both attend a hearing and send us a written representation.

Written representations

82. We encourage everyone to make use of our consultation website, at www.consultation.boundarycommissionforengland.independent.gov.uk, when contributing to our consultation. The website contains all the *Initial proposals* reports and maps, the electorate sizes of every ward, and an online facility where you can have your say on our initial proposals.

83. You can also contribute to our consultation by writing directly to us at: Boundary Commission for England, 35 Great Smith Street, London SW1P 3BQ. Or email us with your views, at: westmidlands@bcommengland.x.gsi.gov.uk. If you wish to comment on more than one region, please send your email to reviews@bcommengland.x.gsi.gov.uk. If you wish to write to us directly, we encourage you to follow the structured approach outlined below and on the separate summary sheet, copies of which can be found at your local place of deposit, or downloaded from our website at www.consultation.boundarycommissionforengland.independent.gov.uk.

84. We encourage everyone, before submitting a representation, to read our approach to data protection and, in particular, the publication of all

representations and personal data within them. This is available at www.consultation.boundarycommissionforengland.independent.gov.uk, or by phoning 020 7276 1102.

Public hearings

85. The Commission will be holding public hearings across all the English regions. In the West Midlands region we will be hosting four public hearings during the consultation period. Our website (www.consultation.boundarycommissionforengland.independent.gov.uk) has more details of these hearings, and an opportunity to register to attend and speak. The table below shows the locations and dates of the hearings in the West Midlands region.

Locations and dates of public hearings

City/town	Location	Dates
Birmingham	Copthorne Hotel, Paradise Circus, Birmingham B3 3HJ	Thursday 3 – Friday 4 November 2011
Ludlow	Ludlow Conference Centre, Lower Galdeford, Ludlow, Shropshire SY8 1RZ	Monday 7 – Tuesday 8 November 2011
Warwick	Warwickshire County Council, Shire Hall, Warwick CV34 4SA	Thursday 10 – Friday 11 November 2011
Stafford	Peel Building, St Chads Place, Stafford ST16 6LR	Monday 14 – Tuesday 15 November 2011

86. The purpose of the hearings is for people to have an opportunity to make representations orally to an Assistant Commissioner, who will chair the hearings and subsequently provide the Commission with a report on their findings. The hearings differ from the way we used to conduct ‘public inquiries’ in past reviews – these were much more judicial in style, with people being allowed to cross-examine each other. The new legislation that Parliament has introduced specifically rules out such inquiries, specifying instead that we host public hearings. These are intended purely as a way for people to make representations orally, direct to representatives of the Commission, as well as to provide an opportunity for the Commission to explain its proposals.

87. It is important to stress that all representations, whether they have been submitted through the online facility on our website, made in person at a hearing or sent to us in writing or by email, will be given equal consideration by the Commission. Therefore it does not matter if you are unable to attend or speak at a public hearing – even after the last public hearing in the West Midlands region has been completed on 15 November 2011, you will still have two and a half weeks left to submit your views to us. By statute, time for the public hearings is strictly limited and you may wish to ensure that your full representations about our proposals are made to us in writing.

88. You can find more information about public hearings, and can register to attend, on our website at www.consultation.boundarycommissionforengland.independent.gov.uk, or by phoning 020 7276 1102.

What do we want views on?

89. While you are welcome to write to us on any issue regarding our initial proposals, it would aid our understanding and analysis if you, when contributing, followed the

structured approach available on our consultation website at www.consultation.boundarycommissionforengland.independent.gov.uk. This structured approach is also outlined below and available in our separate summary leaflet (copies of which are available in places of deposit and on our website). We encourage anyone wishing to contribute to the formation of our final recommendations to follow this approach. The structured approach will also allow us more easily to identify representations on specific areas, or from specific people, during the subsequent four-week period of consultation (referred to in chapter 2).

90. We would particularly like to ask two things of those considering responding to our consultation. First, if you support our proposals, please tell us so, as well as telling us where you object to them. Past experience suggests that too often people who are happy with our proposals do not respond in support, while those who object to them do respond to make their points. That can give a rather distorted view of the balance of public support or objection to proposals, and those who support our initial proposals may then be disappointed if they are subsequently revised in light of the consultation responses. Second, if you are considering objecting to our proposals, do please use the resources (maps and electorate figures) available on our website and at the places of deposit to put forward counter-proposals that are in accordance with the rules to which we are working.

91. Specifically, while anyone is welcome to submit views in whatever format, we are looking for views structured around the following questions:

a. Do you agree in full, in part or not at all with our initial proposals for the West Midlands region?

- b. Which sub-regions do you agree with and why?
- c. Which sub-regions do you disagree with and why?
- d. What are your alternatives for areas you disagree with that meet the statutory rules set out in chapter 2?

92. Above all, however, we encourage everyone to have their say on our initial proposals and, in doing so, to become involved in drawing the map of new Parliamentary constituencies. The more views we get on our initial proposals, the more informed our consideration in developing those proposals will be, and the better we will be able to reflect the public's views in the final recommendations we present in 2013.

Annex: Initial proposals for constituencies, including wards and electorates

Constituency	Ward	District/borough/city/county	Electorate
1. Birmingham Edgbaston BC			74,119
	Edgbaston	Birmingham	17,490
	Moseley and Kings Heath	Birmingham	18,617
	Selly Oak	Birmingham	18,605
	Sparkbrook	Birmingham	19,407
2. Birmingham Erdington BC			77,224
	Erdington	Birmingham	16,461
	Stockland Green	Birmingham	16,670
	Sutton New Hall	Birmingham	17,582
	Tyburn	Birmingham	17,240
	Castle Bromwich	Solihull	9,271
3. Birmingham Hall Green BC			76,898
	Billesley	Birmingham	19,198
	Brandwood	Birmingham	18,567
	Hall Green	Birmingham	19,122
	Springfield	Birmingham	20,011
4. Birmingham Harborne BC			78,354
	Bartley Green	Birmingham	17,691
	Harborne	Birmingham	16,473
	Quinton	Birmingham	17,385
	Weoley	Birmingham	17,664
	Old Warley	Sandwell	9,141
5. Birmingham Ladywood BC			75,282
	Hodge Hill	Birmingham	17,778
	Ladywood	Birmingham	18,021
	Nechells	Birmingham	19,716
	Washwood Heath	Birmingham	19,767
6. Birmingham Northfield BC			73,824
	Bournville	Birmingham	19,298
	Kings Norton	Birmingham	16,935
	Longbridge	Birmingham	18,397
	Northfield	Birmingham	19,194
7. Birmingham Perry Barr BC			73,040
	Aston	Birmingham	19,353
	Handsworth Wood	Birmingham	18,448
	Lozells and East Handsworth	Birmingham	18,493
	Perry Barr	Birmingham	16,746
8. Birmingham Yardley BC			77,047
	Acocks Green	Birmingham	19,365
	Bordesley Green	Birmingham	19,861
	South Yardley	Birmingham	19,784
	Stechford and Yardley North	Birmingham	18,037

Constituency	Ward	District/borough/city/county	Electorate
9. Bridgnorth and Telford South CC			75,777
	Albrighton	Shropshire	3,616
	Bridgnorth East and Astley Abbotts	Shropshire	5,253
	Bridgnorth West and Tasley	Shropshire	5,292

Glossary

Assistant Commissioner	Independent person appointed at the request of the BCE to assist it with the discharge of its functions.
Borough constituency abbreviated to BC	Parliamentary constituency containing a predominantly urban area.
County constituency abbreviated to CC	Parliamentary constituency containing more than a small rural element.
Designation	Classification as either a borough constituency or as a county constituency.
Electorate	The number of registered Parliamentary electors in a given area.
(Statutory) Electorate range	The statutory rule that requires the electorate of every constituency (as at the review date) to be within 5% of the UK electoral quota.
Final recommendations	The recommendations submitted in a formal final report to the Government at the end of a review. They may – or may not – have been revised since the initial proposals in any given area.
General review	Major review of all Parliamentary constituencies in England at the same time. From 2011 all Parliamentary constituency reviews are general reviews.
Initial proposals	First formal proposals published by the BCE during the review for public consultation.
Public hearing	Formal opportunity in a given area for people to make oral representations, chaired by an Assistant Commissioner. In each region of England there may be no fewer than two and no more than five hearings, and each may last a maximum of two days.
Representations	The views provided by an individual, group or organisation to the BCE on its initial or revised proposals, either for or against, including counter-proposals and petitions.
Review date	Proposals must be based on the numbers of electors on the electoral registers on this date, which is defined in the Act as the date two years and ten months before the final report is to be submitted (i.e. 1 December 2010 for the review that is to conclude with a final report by 1 October 2013).
Revised proposals	The initial proposals as subsequently revised.
UK electoral quota	The average number of electors in a constituency, found by dividing the total electorate of the UK (less that of the four specific ‘protected’ constituencies) by 596.
Unitary authority	An area where there is only one tier of local council (above any parish or town council). This contrasts with those ‘shire district’ areas that have two tiers (i.e. both a non-metropolitan county council and a district/borough/city council).
