Summary
This circular provides the new organisation chart for the Fire and Resilience Directorate, following various changes in structure within the Directorate, for the purpose of easy reference.
Organisational Structure of the Fire and Resilience Directorate

1.0 Introduction
1.1 You may be aware the Fire and Resilience Directorate (FRD) has undergone structural changes recently. These changes are now nearing completion and an organogram of the FRD structure has been produced. This is attached as a PDF document providing a quick reference guide to these changes.

2.0 Chief Fire and Rescue Advisers Unit
2.1 Part of the FRD changes include the establishment of the new Chief Fire and Rescue Advisers Unit (CFRAU). Details of the new Units functions and responsibilities can be found in circular number 7/2007.

2.2 Prior to a new Chief Fire and Rescue Adviser being appointed, an interim management structure, a CFRAU Transition Team, has been put in place which will enable key priorities to be handled in a robust and professional manner until the Summer 2007.

2.3 The Transition Team is being headed by Max Hood (on secondment from London Fire and Emergency Planning Authority). Enquiries should be directed to Bridget Monticelli on 0207 944 5621, or alternatively email bridget.monticelli@communities.gsi.gov.uk
