## DATA SET CHANGE NOTICE

---

<b>Reference No:</b>	DSCN 39/2007 ROCR/OR/0143/003 CP 824
<b>Version No:</b>	2.0
<b>Subject:</b>	48 Hour Genitourinary Medicine Access Monthly Monitoring (GUMAMM)
<b>Type of Change:</b>	Introduction of a new approved Information Standard
<b>Implementation Date:</b>	1 <sup>st</sup> February 2008
<b>Business Justification:</b>	To monitor the 48 Hour Access target which is aimed at reducing Sexually Transmitted Infection (STI) rates amongst the population by treating patients with infections more rapidly.  This forms part of the Public Service Agreement Target for Teenage Pregnancy and Sexual Health (Ref PSA11b).
<b>Effect on other Information Standards:</b>	This supersedes ROCR/OR/0143/002

---

### Introduction

This standard will support the collection of data to monitor the 48 Hour Genitourinary Medicine (GUM) Access target, to validate this and assure its on-going attainment. This forms part of the Public Service Agreement (PSA) target for Teenage Pregnancy and Sexual Health Ref: PSA11b.

This DSCN provides detail of a minimum data set to record activity and attendance at GUM clinics. The data set and aggregate return will enable the monitoring and management of 48 Hour access to GUM. The target is that by March 2008, 100% of patients attending GUM services should be offered an appointment to be seen within 48 Hours (2 normal working days - defined as Monday to Friday excluding Bank Holidays).

The requirement for a national standard for this data set was approved by the Information Standards Board in January 2007. The draft standard for this data set was approved by the Information Standards Board in July 2007.

This DSCN is relevant to all organisations that provide Level Three GUM services and suppliers of operational systems that support these services.

'GUM services' are specialised services, where the primary function of the specialist clinical multidisciplinary team is concerned with the provision of screening, diagnosis and management of sexually transmissible infections and related genital medical conditions. In line with the national strategy for sexual health and Human Immunodeficiency Virus (HIV), GUM services would be represented as Level Three providers. There are currently 206 such providers known in England.

By seeing and treating patients more rapidly, the achievement of this target will have a positive impact on STI rates which have been rising in recent years.

The standard does not apply to Foundation Trusts.

The standard will apply to NHS commissioned care from the Independent Sector.

## Background

There are well-documented public health reasons why GUM access should be improved, as unmet demand leads to high transmission rates of Sexually Transmitted Infections (STIs) including Human immunodeficiency virus (HIV). Delayed treatment and untreated infections fuels increases in STIs as further individuals become infected. A paper published in the Journal of Infectious Diseases (September 2005, Ref 2005;192:824-836) demonstrated that adequate increases in capacity are very likely to lead to a cost-saving situation in which rapid treatment of a majority of new infections limits onward transmission, resulting in low infection rates and low demand for treatment. NB: Abstract (and full text) available online at:

<http://www.journals.uchicago.edu/JID/journal/issues/v192n5/34080/brief/34080.abstract.html>

The Government responded to this and recent rises in STI rates by introducing the target to provide a focus for improvement. Prior to the development of this standard, the approach used was based on a survey conducted by the Health Protection Agency (HPA). This began in May 2004 and ran quarterly using 1-week samples. To avoid duplication the last survey was run in August 2007. While the HPA survey was a useful indicator of waiting times for services, there was general agreement from stakeholders that continuous monitoring of waiting times was required. In June 2006, Duncan Selbie (Gateway reference: 6647) notified the NHS that routine reporting of GUM waiting times via Unify would commence. This target is one of the top six priorities for the NHS in 06/07 and 07/08.

## Details of Change

GUM Services have been returning data on access on a monthly basis since summer 2006 (Ref **GUMAMM – ROCR/OR/0143/002**). The majority of the data to be included in this standard are already collected in most clinics but not necessarily in the required format. This change updates and clarifies the requirements for this and confirms the national standard format for the data needed for the aggregate central return. The approved data set includes:

- Registration / referral information (necessary to generate the aggregate report)
- Patient perspective information including symptoms, clinic preference and wait (also necessary to generate the aggregate report)

The items used to generate the aggregate central return will be reported from clinics into Unify2 but also signed-off on Unify2 by the responsible (commissioning) PCT.

Suppliers and clinics will need to work together to:

- Install upgraded software to enable collection and reporting
- Train users in the new software to ensure high quality collection
- Test the produced aggregate report

Timescales to ensure satisfactory submission on Unify2 are outlined below:

Date and Action (by whom)
Provider returns must be submitted by the 18 <sup>th</sup> (or next working day) for the previous calendar month
Commissioner returns are due by the 25 <sup>th</sup> or nearest next working day

## Further Information and Support

Further help is available as detailed below.

GUM Access Guidance Email Help - DH can offer support and help to resolve guidance issues via email enquiry: [kim.anderson@dh.gsi.gov.uk](mailto:kim.anderson@dh.gsi.gov.uk)

Unify2 Helpdesk - For technical issues with Unify2, email [unify2@dh.gsi.gov.uk](mailto:unify2@dh.gsi.gov.uk). Guidance documents will be distributed to all Providers of GUM services, relevant IT suppliers and Commissioners via the DH.

## Change Request

### NHS Connecting for Health

#### NHS Data Model and Dictionary Service

<b>Reference:</b>	Change Request 824
<b>Version No:</b>	2.0
<b>Subject:</b>	Data Standards: 48 Hour Genitourinary Medicine Access Monthly Monitoring Data Set
<b>Type of Change:</b>	Change to the NHS Data Model and Dictionary
<b>Effective Date:</b>	1 February 2008
<b>Reason for Change:</b>	Introduction of the Department of Health 48 hour Genitourinary Medicine Access Monthly Monitoring (GUMAMM) Data Set and supporting data items into the NHS Data Model and Dictionary.

#### Background:

The Department of Health requires information on services provided by NHS providers of Level 3 Genitourinary Medicine (GUM) services. This information is collected via the 48 Hour Genitourinary Medicine Access Monthly Monitoring (GUMAMM) Data Set. This data set is submitted via Unify2, the data collection system used by the Department of Health to collect a wide range of aggregate performance information. NHS providers enter their data via the on-line system split by commissioner.

## GENITOURINARY EPISODE

---

Change to Supporting Information: Change to Supporting Information

Genitourinary Episode is an ACTIVITY GROUP.

~~A period of time during which a PATIENT attends a Consultant Clinic or a Nurse Clinic for a genitourinary~~

~~problem.~~ A period of time during which a PATIENT attends a Consultant Clinic or a Nurse Clinic for screening, diagnosis and management of sexually transmissible infections and related genital medical conditions. Each episode will be for one GENITOURINARY EPISODE TYPE. It is therefore possible for a PATIENT to have concurrent Genitourinary Episodes. A PATIENT may also have more than one Genitourinary Episode for the same GENITOURINARY EPISODE TYPE over time. An episode is terminated either by a PATIENT being formally discharged or not being in face-to-face contact with the service for at least six months.

Information recorded for a Genitourinary Episode includes:

EPISODE NUMBER  
End Date O  
GENITOURINARY EPISODE TYPE  
INFECTION PROBABLE SOURCE O (mandatory for certain sexually transmitted diseases)  
Start Date

## GENITOURINARY MEDICINE ACCESS MONTHLY MONITORING DATA SET OVERVIEW

---

Change to Supporting Information: New Supporting Information

[Genitourinary Medicine Access Monthly Monitoring Data Set Overview](#)

### Contextual Overview

The Department of Health requires this dataset from NHS providers of specialised services, where the primary function of the specialist clinical multidisciplinary team is concerned with the provision of screening, diagnosis and management of sexually transmissible infections and related genital medical conditions. In line with the national strategy for sexual health, Human Immunodeficiency Virus (HIV), genitourinary medicine services are represented as level three providers. This information is collected via the Genitourinary Medicine Access Monthly Monitoring Data Set.

The Genitourinary Medicine Access Monthly Monitoring Data Set provides essential information for :-

- monitoring the 48 hour access target
- assurance of validity and veracity of the achievement of the target support for local service modernisation, performance management and commissioning required to assure 48 hour access on an on-going basis

### Collection and Submission of the Genitourinary Medicine Access Monthly Monitoring Data Set

- The Genitourinary Medicine Access Monthly Monitoring Data Set is a monthly provider based return.
- Provider returns must be submitted by the 18th (or next working day) for the previous calendar month. Commissioner returns are due by the 25th or nearest next working day.
- The data is submitted via Unify2, the Department of Health online data collection system. NHS providers enter their data onto Unify2 using an upload.

### Synopsis of the Genitourinary Medicine Access Monthly Monitoring Data Set

1. REPORTING PERIOD, ORGANISATION CODE (CODE OF PROVIDER), ORGANISATION CODE (CODE OF COMMISSIONER) and SITE CODE (OF TREATMENT)
2. Attendances
3. First APPOINTMENTS Missed
4. First APPOINTMENTS offered within 2 days (excludes bank holidays & weekends)

5. PATIENTS reporting symptoms
6. FIRST ATTENDANCES seen after 2 days (excludes bank holidays & weekends)
7. Human immunodeficiency virus (HIV) clinic attendances
8. PATIENT perspective
9. PATIENTS registered but not seen

## SCHEDULED APPOINTMENT

---

Change to Attribute: New Attribute

### APPOINTMENT BOOKING TYPE

This is an indicator for whether an APPOINTMENT has been prebooked or the PATIENT attended a CLINIC OR FACILITY without prior notice or Scheduled Appointment.

*National Codes:*

- 01 Scheduled appointment
- 02 Unscheduled appointment

This attribute is also known by these names:

Context	Alias
plural	APPOINTMENT BOOKING TYPES

---

## APPOINTMENT OFFER REFUSED REASON

---

Change to Attribute: New Attribute

### APPOINTMENT OFFER REFUSED REASON

The reason a PATIENT declined an APPOINTMENT OFFER.

*National Codes:*

- 01 PATIENT chose not to accept the APPOINTMENT OFFER for personal reasons
- 02 PATIENT identified clinical reasons for not accepting the APPOINTMENT OFFER
- 03 PATIENT preferred an APPOINTMENT at an alternative CLINIC OR FACILITY

**Examples:**

01 - PATIENT considered the APPOINTMENT OFFER inconvenient, or preferred an Unscheduled Appointment or an accompanied appointment etc.

02 - PATIENT may be taking drugs which may affect test, or needs to wait for incubation period or menstrual cycle to finish etc.

03 - PATIENT may prefer to attend a specialist CLINIC OR FACILITY or another statutory or voluntary ORGANISATION.

## EARLIEST REASONABLE OFFER DATE

---

Change to Data Element: Change to Description

Format/length:	see DATE
National Codes:	
<del>Default Codes:</del>	

**Notes:**

~~For an APPOINTMENT this is the earliest reasonable APPOINTMENT DATE OFFERED.~~

~~For an Elective Admission this is the the earliest reasonable OFFERED FOR ADMISSION DATE. Note that the reasonableness criteria defined in data element OFFERED FOR ADMISSION DATE are still valid for statutory returns Admitted Patient Flows Data Set and Admitted Patient Stocks Data Set (formerly KH07). These reasonableness criteria are different to those required for EARLIEST REASONABLE OFFER DATE~~

~~Where, for any reason, a PATIENT cancels an APPOINTMENT or an OFFER OF ADMISSION the EARLIEST REASONABLE OFFER DATE for the rearranged APPOINTMENT or OFFER OF ADMISSION will be the EARLIEST REASONABLE OFFER DATE of the cancelled APPOINTMENT or OFFER OF ADMISSION.~~

~~Where, for any reason, any PROVIDER IN SERVICE AGREEMENT cancels and re-arranges an APPOINTMENT or an OFFER OF ADMISSION, the EARLIEST REASONABLE OFFER DATE for the re-arranged APPOINTMENT or Elective Admission will be the date of the earliest reasonable offer made following the cancellation.~~

~~Staff will need to make a judgement on whether an offer is reasonable. They will need to take into account the priority of the appointment. It is not appropriate for a national definition of a reasonable offer – it will depend on the patient's individual circumstances.~~

~~Where a patient accepts an offer, the offer is a reasonable offer.~~

~~For the first Genitourinary Clinic Attendance in a Genitourinary Episode the EARLIEST REASONABLE OFFER DATE will be the earliest date offered to the patient.~~

**~~This data element is also known by these names:~~**

<b>Context</b>	<b>Alias</b>
<del>Default Codes:</del>	

**Notes:**

For an APPOINTMENT this is the earliest reasonable APPOINTMENT DATE OFFERED.

For an Elective Admission this is the earliest reasonable OFFERED FOR ADMISSION DATE. Note that the reasonableness criteria defined in data element OFFERED FOR ADMISSION DATE are still valid for statutory returns Admitted Patient Flows Data Set and Admitted Patient Stocks Data Set (formerly KH07). These reasonableness criteria are different to those required for EARLIEST REASONABLE OFFER DATE

Where, for any reason, a PATIENT cancels an APPOINTMENT or an OFFER OF ADMISSION the EARLIEST REASONABLE OFFER DATE for the rearranged APPOINTMENT or OFFER OF ADMISSION will be the EARLIEST REASONABLE OFFER DATE of the cancelled APPOINTMENT or OFFER OF ADMISSION.

Where, for any reason, any PROVIDER IN SERVICE AGREEMENT cancels and re-arranges an APPOINTMENT or an OFFER OF ADMISSION, the EARLIEST REASONABLE OFFER DATE for the re-arranged APPOINTMENT or Elective

Admission will be the DATE of the earliest reasonable offer made following the cancellation.

Staff will need to make a judgement on whether an offer is reasonable. They will need to take into account the priority of the APPOINTMENT. It is not appropriate for a national definition of a reasonable offer - it will depend on the PATIENTS individual circumstances.

Where a PATIENT accepts an offer, the offer is a reasonable offer.

For the first Genitourinary Care Contact in a Genitourinary Episode the EARLIEST REASONABLE OFFER DATE will be the earliest DATE offered to the PATIENT.
