Going abroad and social security benefits

A basic guide to benefits if you are going abroad permanently or for a temporary stay
If you are getting a social security benefit and are going abroad, you need to know how this will affect you. This leaflet tells you how benefits are affected, whether you are going abroad for a temporary stay or permanently.

With many benefits it will make a difference whether your stay abroad is temporary or permanent. Some benefits can continue while you are abroad, some can continue for a certain period as long as your stay abroad is temporary, and some will stop straight away.

The most important thing is to let your social security office know that you are going abroad. We will tell you if this affects your benefits.

If you are a serving member of HM Armed Forces abroad, the rules for some benefits are different. If you want more information, get leaflet GL26 Service families.

If you have a question which is not answered in the leaflet, or if you just want more advice, please contact your social security office or Jobcentre Plus office. See Where to get help and advice on page 15 of this leaflet for details.

Child Tax Credit and Working Tax Credit

Child Tax Credit (CTC) and Working Tax Credit (WTC) were introduced in April 2003. CTC is for families with children and is payable regardless of whether the adult(s) in the family are in work. WTC supports working people on low and middle incomes with extra amounts for people with disabilities. Tax credits are administered by and claimed from the Inland Revenue.

To find out more, see the tax credits website at www.taxcredits.inlandrevenue.gov.uk/Home.aspx or contact the helpline on 0845 300 3900 (open 7 days a week 8am-8pm).
Great Britain (GB) means England, Scotland and Wales.

United Kingdom (UK) means GB and Northern Ireland.

The European Economic Area (EEA) is made up of all European Union (EU) countries: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Italy, Luxembourg, Netherlands, Portugal, the Republic of Ireland, Spain, Sweden and the UK, plus Iceland, Liechtenstein and Norway. Switzerland is not a member of the EEA, but as a result of an agreement with the EU that came into force on 1 June 2002, the EC rules on social security will also apply to Switzerland. Gibraltar is treated as a separate state for social security purposes.
This leaflet gives the general rules for people going abroad. If you are going to another country in the European Economic Area (EEA), Switzerland or a country which has a special arrangement with the UK, you might be able to get a benefit which you would not normally get abroad. Or you might be able to get a benefit which that country provides. For most benefits provided by other countries, under these special arrangements, you will have to have paid National Insurance (NI) contributions in the UK.

If you are going to another country in the EEA, or to one of the countries listed on this page, get the leaflet for the country you are going to.
