
Favourable 45.26% (45.02%)
Unfavourable Recovering 27.01% (22.34%)
Unfavourable No Change 18.52% (20.85%)
Unfavourable Declining 9.14% (11.7%)
Destroyed or Part Destroyed 0.07% (0.09%)

'Erratum to the 2006 Departmental Report: The chart published at Figure 13 in the 2006 Departmental Report showing the Condition of Sites of Special Scientific Interest in England at 31 March 2006 is erroneous in that it shows the condition of National Nature Reserves at that date, rather than all SSSIs. The figures for the overall condition of SSSIs at 31 March 2006 should have read (data in brackets are the figures at 31 March 2005): Favourable 45.26% (45.82%); Unfavourable Recovering 27.01% (22.34%); Unfavourable No Change 18.52% (20.85%); Unfavourable Declining 9.14% (11.70%); Destroyed or Part Destroyed 0.07% (0.09%).'
