AIRCRAFT BATTLE DAMAGE REPAIR - SAMCO 87

Aim of course

To instruct selected officers, Senior Rates, and confirmed LAEMs, in the assessment of Aircraft damaged in a hostile environment, and to inform personnel of the need for battle damage repair and the repair philosophy.

Outline syllabus

50% of the instruction will be carried out in the classroom, the remainder being carried out in the hanger/workshop and airfield environment. The final repair exercise is carried out on the airfield under simulated battle conditions.
