

BUDGET 2009

22 April 2009

Budget 2009 for the East Midlands

Today, the Chancellor has announced a package of measures to help business, families, and pensioners in these unprecedented economic times. These include:

- Support for business, including by extending the enhanced loss relief for an additional year and expanding HMRC's Business Payment Support Service, increasing capital allowances for new investment to 40 per cent for one year, and establishing a £750 million Strategic Investment Fund to support advanced industrial projects of strategic importance;
- An additional £1.7 billion will be set aside for the Department for Work and Pensions over the next two years to ensure Jobcentre Plus and Flexible New Deal capacity is in place to respond effectively to rising unemployment and additional support for the long term unemployed, building on the extra support now available to those unemployed for over 6 months. The package will offer a guaranteed job, training or placement to 18-24 years olds who have been unemployed for 12 months. In February 2009, there were over 32,300 people aged 18-24 claiming Jobseeker's Allowance in the East Midlands.
- An additional payment of £100 to households with someone aged 80 or over and £50 to households with someone aged 60 or over, to be paid alongside the Winter Fuel Payment in 2009-10. In the East Midlands, this will benefit 650,000 households, of which 150,000 households contain someone aged 80 or over.
- A £600 million fund to unlock stalled housing sites and provide a kick-start to house-building to deliver up to an additional 10,000 homes in England. As part of this, to stimulate housing development in the East Midlands, funding will be made available to local authorities in the region for construction of new social homes to higher energy efficiency standards.
- £375 million over the next two years for energy and resource efficiency in business, public buildings and households. For the East Midlands, this package will mean that energy efficiency is improved in: 10,000 homes; an estimated 400 public buildings, including schools and hospitals; and through an estimated 250 loans to businesses.

This April, the Government has also introduced changes to tax and benefits that mean that:

- 1,630,000 of basic rate tax payers in the East Midlands will be £145 better off;

- Increases to the child element of Child Tax Credit of £75 above indexation will benefit a round 280,000 families in the East Midlands
- The introduction of the new £190 health in pregnancy grant will benefit the estimated 50,000 mothers to be in the East Midlands this year; and
- The 5% increase in the basic State Pension, along with the £60 payment made at the beginning of the year, mean that the East Midlands 840,000 pensioners will be better off.

The Pre Budget report also announced changes to help the economy. And these are now delivering. For the East Midlands, over 8,470 businesses have benefited from being able to spread payments of tax, and the enterprise finance guarantee scheme has ensured that viable SME's continue to access finance they require in the East Midlands.

The Pre Budget Report announced that £3 billion of capital expenditure would be brought forward to 2008/9 and 2009/10. Already this has meant that in the East Midlands:

- 3400 homes have received grants under the Warm Front programme to improve energy efficiency,
- 8 higher education institutions have benefited from further investment; and
- over 500 homes have been improved under the decent homes programme.

Quotes:

Phil Hope, Regional Minister for the East Midlands, said:

"Today's budget has set out a programme of immediate action that will hugely benefit the East Midlands economy. I, along with my Regional Economic Cabinet, have worked hard to ensure that the concerns and issues of business and families in the East Midlands are fed back into national decision-making. I believe that today's budget will help to address these concerns and will be vital in delivering a stable and sustainable future for the East Midlands."

Yvette Cooper, Chief Secretary to the Treasury, said:

"This Budget is about jobs in the East Midlands region, helping people and businesses right now. It also prepares the East Midlands for the recovery - encouraging business investment, developing a low carbon economy and promoting a fairer society. "
