Welcome to the June e-newsletter from the LSC providing information about the new Professional and Career Development Loans.

Career Development Loans (CDLs) have now been replaced with the new Professional and Career Development Loans.

Like CDLs, Professional and Career Development Loans are bank loans to help individuals pay for learning that will improve their skills for work, but the conditions of the loans have changed.

With a Professional and Career Development Loan, learners will:

- Have the option to borrow up to £10,000 to support the cost of learning
- Benefit from a fixed interest rate for repayment of the loan, that is competitive compared with other commercial unsecured loans - Barclays Bank and The Co-operative Bank* have confirmed that they will offer the new loans at a fixed rate of interest of 9.9%
- Be allowed to have up to £16,000 of savings and still be eligible for a loan.

Leaflets to help you promote the new loans will be available from July. To place your orders please call the helpline on 0800 585 505.

Application packs for learners will be available from July. Learners should call the helpline on 0800 585 505 to place orders or visit www.direct.gov.uk/pcdl

In this edition of the e-newsletter, we will cover:

- Transition from CDLs to Professional and Career Development Loans
- Application process for learners
- Support for you

*Barclays and the Co-operative Bank have signed up for the new programme – other banks have expressed interest and will be getting involved later in the year.

What’s happened to Career Development Loans (CDLs)?

Learners can no longer apply for a CDL, they have been replaced by Professional and Career Development Loans. To order an application pack for a Professional and Career Development Loan, learners should call 0800 585 500.

Like CDLs, Professional and Career Development Loans are bank loans that can be used to help pay for work-related learning. However, the conditions of the loan are better for learners.

For more information on the changes, please visit http://pcdl.lsc.gov.uk/faqs/

What if a learner already has a CDL?

If a learner already has a CDL, they will still need to repay the money they’ve borrowed under the terms and conditions agreed with the participating bank.

Learners can’t apply for a Professional and Career Development Loan if they already have a CDL for the same course. However, if they pay back their CDL, they will be able to apply for a Professional and Career Development Loan if they start a new course.

If they need extra funds for their CDL, learners must get in touch with the participating bank. The limit on what learners can borrow through a CDL is £8,000, and they can’t switch to a Professional and Career Development Loan in order to borrow more.

What if a learner is in the process of applying for a CDL?

If a learner is on course that has already started or is starting in July, they should continue with their CDL application. However, learners must be aware that they will not benefit from the improved conditions of the loan if they continue their application for a CDL.

If they don’t need support with the cost of their learning until September 2009, learners should call the helpline on 0800 585 505 to order an application pack for a Professional and Career Development Loan.

What should learners consider before applying?
Taking on a loan is a big commitment. Here are some of the things learners should consider before taking this step:

1. Have they considered all learning support options available?
   Remember, a loan is just one of a range of support options on offer for taking part in learning. Visit www.direct.gov.uk/adultlearning

2. Have they thought about how much money they need to borrow?
   Do they need money for course fees only or for other course costs such as books, travel and even living expenses?

3. Have they checked how much their monthly repayments would be and how they would meet them?
   Are they confident their course will lead to a job that will enable them to repay the loan over an agreed fixed period?

4. Have they thought about committing to the course?
   Remember if they fail to complete their course, they will still be responsible for repaying the full amount of the loan to the bank.
