NO.077 006

prevention officer will establish what recommendation or other security precautions, if any, had been taken by the aggrieved party to prevent or minimise injury or damage. These details will be copied and supplied, where appropriate, to the police officer responsible for preparing Criminal Injury/Damage report claims and/or the Force legal adviser where a civil claim against the Chief Constable is contemplated.

#### 5. THREAT LOG

As the result of the large number of threats received, sub-divisional commanders should bring into operation a threat log which will contain brief details of any threat to individuals in their areas passed to them by local Special Branch together with any action taken as a consequence. This log, by its very nature, will contain restricted information and sub-divisional commanders will therefore ensure safeguards are introduced for its security and access by interested parties.

#### 6. CANCELLATION

Force Order Part I No. 33/86, File Box D(c) is hereby cancelled.

#### Distribution/

All chief officers, chief superintendents, superintendents, departments, stations and offices
