The Royal Institute of British Architects Client Forums tailor activities to the needs and aspirations of the clients within the health, education, sport and housing sectors. The aims and objectives of the initiative are:

RIBA Client Forums

- To improve the performance of both clients and design professionals to ensure that value for money, fitness for purpose and quality are achieved in the projects they undertake.

- To encourage clients and design professionals to understand and embrace strategic issues, to inform and improve specific developments.

- To research the needs of building users and explore the success of projects, in order to influence future developments.

- To publicise successful schemes and highlight examples of good practice, as perceived by the client whilst exploring the implications of social, institutional and technological change.

- To influence those who commission buildings to appreciate long-term issues rather than short-term, low cost solutions.
