AL LAWSON: Hi Gary its Al Lawson

Gary YOUNG: Hello Alan Alistair

AL LAWSON: I'm at Liverpool Street just now I think I'm probably the most
senior person here so what we've done ... hold onyeah sorry
Gary think I'm the most senior here I'm just waiting for the Alpha
car to meet at the LU station control room and the member of staff
who's on the platform who witnessed the explosion is here just now
as well

Gary YOUNG: Sorry what's happened, what have we got?

AL LAWSON: well we don't know if it's an explosion under a train or it's an
explosion down the tunnel but we think there's a power loss at some
point anyway

Gary YOUNG: but we've liaised with NCC

AL LAWSON: I expect that it's an operating problem rather than a CT problem
