Information released title:
Classic cars scrapped under The Vehicle Scrappage Scheme

Summary of information:
Details of numbers and types of classic car scrapped under The Vehicle Scrappage Scheme

Date of release:
13th January 2011

Information Released:

The information we hold suggests approximately 350 of the cars that were scrapped under the Vehicle Scrappage Scheme can be identified as ‘classic’ cars, taking the definition of ‘classic’ as being cars taxed as historic vehicles, that is, cars manufactured prior to 1 January 1973. This figure excludes transactions completed in Northern Ireland because the age of vehicles has had to be estimated by vehicle registration number.

The data also indicates that the types of car making up this figure are as follows:

- Austin/Morris/Wolseley/Riley/BMC/BL 145
- Land Rover 50
- Volkswagen 50
- MG 35
- Standard/Triumph 35
- Ford 20
- Rootes Group 15
