STRUCTURE OF THE QUESTIONNAIRE SPECIFICATION

All questions in the specification are laid out using the same format.

Example of question layout

In what way was the job not permanent - was it...
1. working for an employment agency
2. casual type of work
3. seasonal work
4. done under contract for a fixed period or for a fixed task
5. or was there some other way that it was not permanent?

Some questions (for instance USUWRKM) have a main group routed to them, but subsets of this group are asked variations of the question. In such cases the main routing is at the foot of the question as usual, and the subsets are listed separately above it, with the individual aspect of the routing indented slightly from the left of the page.

The appearance of brackets in the specification usually denotes a form of text substitution (alternative question wording depending upon the respondent’s earlier answers); carried out either by the BLAISE computer package or else by the interviewer, during the questionnaire. Square brackets are used in instances in which information is automatically inserted into a question by the computer package. Round brackets ( ) are used in instances in which the interviewer may or may not wish to add something in order to assist the flow of the interview.

Up until the end of 2005 the LFS was run on seasonal quarters i.e. March to May, June to August, September to November, and December to February. From 2006 the LFS has been run on CALENDAR quarters i.e. January to March, April to June, July to September, and October to December.

The timings of quarterly-specific questions have also changed as follows:

<table>
<thead>
<tr>
<th>Seasonal Quarter</th>
<th>now asked in …</th>
<th>Calendar Quarter</th>
</tr>
</thead>
<tbody>
<tr>
<td>December to February (Q4)</td>

<td>July to September (Q3)</td>
<td></td>
</tr>
<tr>
<td>September to November (Q3)</td>
<td>October to December (Q4)</td>
<td></td>
</tr>
</tbody>
</table>
The most noticeable change is that the Eurostat Ad Hoc Module will now appear in main, wave one of every quarter.
